

IMPORTANT NOTICE

In accessing the attached final terms (the "Final Terms") you agree to be bound by the following terms and conditions.

EU MiFID II product governance – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, "MiFID II"); (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate – investment advice, portfolio management and non-advised sales, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the Financial Services and Markets Act 2000 (as amended, the "FSMA") to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

The information contained in the Final Terms may be addressed to and/or targeted at persons who are residents of particular countries only as specified in the Final Terms and/or in the Base Prospectus (as defined in the Final Terms) and is not intended for use and should not be relied upon by any person outside those countries and/or to whom the offer contained in the Final Terms is not addressed. **Prior to relying on the information contained in the Final Terms, you must ascertain from the Final Terms and/or the Base Prospectus whether or not you are an intended addressee of the information contained therein.**

Neither the Final Terms nor the Base Prospectus constitutes an offer to sell or the solicitation of an offer to buy securities in the United States or in any other jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration, exemption from registration or qualification under the securities law of any such jurisdiction.

The securities described in the Final Terms and the Base Prospectus have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the "Securities Act") and may not be offered or sold directly or indirectly within the United States or to, or for the account or benefit of, U.S. persons or to persons within the United States of America (as such terms are defined in Regulation S under the Securities Act ("Regulation S")). The securities described in the Final Terms will only be offered in offshore transactions to non-U.S. persons in reliance upon Regulation S.

Issue of Bull Certificate
under the Programme for the
Issuance of Warrants and Certificates

The Base Prospectus referred to below (as completed by these Final Terms) has been prepared on the basis that, except as provided in sub-paragraph (b) below, any offer of Instruments in any Member State of the European Economic Area will be made pursuant to an exemption under the EU Prospectus Regulation, from the requirement to publish a prospectus for offers of the Instruments. Accordingly any person making or intending to make an offer of the Instruments may only do so:

- (a) in circumstances in which no obligation arises for the Issuer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer; or
- (b) in those Public Offer Jurisdictions mentioned in Paragraph 7 of Part B below, provided such person is one of the persons described in Paragraph 7 of Part B below and which satisfies the conditions set out therein and that such offer is made during the Offer Period specified for such purpose therein.

The Issuer has not authorised, and it does not authorise, the making of any offer of Instruments in any other circumstances. The expression "**EU Prospectus Regulation**" means Regulation (EU) 2017/1129.

The Base Prospectus referred to below is valid until and including 16 December 2022. The succeeding base prospectus relating to the Programme shall be made available for viewing during normal business hours at, and copies may be obtained from, the principal office of the Issuer at Satamaradankatu 5, FI-00020 Nordea, Helsinki, Finland and from www.nordea.no.

PART A – CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the "**Conditions**") set forth in the base prospectus dated 17 December 2021 which constitute a base prospectus (the "**Base Prospectus**") for the purposes of the EU Prospectus Regulation. This document constitutes the Final Terms of the Instruments described herein for the purposes of the EU Prospectus Regulation and must be read in conjunction with the Base Prospectus in order to obtain all relevant information. A summary of the Instruments is annexed to these Final Terms. Full information on the Issuer and the offer of the Instruments is only available on the basis of the combination of these Final Terms and the Base Prospectus. The Base Prospectus and these Final Terms are available for viewing during normal business hours at, and copies may be obtained from, the principal office of the Issuer at Satamaradankatu 5, FI-00020 Nordea, Helsinki, Finland and from www.nordea.no.

What are the Key Risks Specific to the Issuer?

The global coronavirus outbreak, which has negatively impacted the economies exposed to the outbreak, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations and adversely affect the Nordea Group's ability to access capital and liquidity: The outbreak of COVID 19 (also commonly referred to as the "coronavirus") spread globally in the first half of 2020 and disrupted various markets and has resulted in significant uncertainty about the development of the economies affected by the outbreak both in Europe and elsewhere. The majority of the Nordea Group's operations are concentrated in the Nordic countries that have been, and are expected to continue to be, exposed to the coronavirus outbreak in a similar manner as a number of other European countries. The Nordea Group is affected by the coronavirus outbreak through its direct and indirect impact on the customers, counterparties, employees and other stakeholders of the Nordea Group, both in the Nordic countries and elsewhere, as a result of, among others, public health measures, such as business closings and restrictions on travel and gatherings. There can also be no assurances that the adverse impact of the coronavirus outbreak will not lead to a tightening of liquidity conditions or funding uncertainty, or adversely affect the credit ratings assigned to Nordea or its subsidiaries. New regulatory requirements may also be introduced on the future to address any liquidity concerns or other adverse effects the coronavirus outbreak may have on the financial sector, and financial institutions, such as the Nordea Group, could also become subject to related heightened supervisory demands. Any future adverse consequences related to the coronavirus outbreak not yet known, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations and adversely affect the Nordea Group's ability to, among others, meet its financial targets or access capital and liquidity on financial terms acceptable to the Nordea Group.

Negative economic developments and conditions in the markets in which the Nordea Group operates can adversely affect the Nordea Group's business and results of operations: The Nordea Group's performance is significantly influenced by the general economic conditions in the Nordic markets (Denmark, Finland, Norway and Sweden). Development of the economic conditions in other markets where the Nordea Group currently operates can also affect the Nordea Group's performance. Adverse economic developments have affected and may continue to affect the Nordea Group's business in a number of ways, including, among others, the income, wealth, liquidity, business and/or financial condition of the Nordea Group's customers, which, in turn, could further reduce the Nordea Group's credit quality and demand for the Nordea Group's financial products and services. For example, the coronavirus outbreak and the

preventive measures implemented in the Nordic countries and elsewhere to contain its spread could have an adverse effect on borrowers, which, in turn, could result in decreased credit quality and increased provisioning levels.

The Nordea Group is exposed to market price risk: The Nordea Group's customer-driven trading operations and its treasury operations (where the Nordea Group holds investment and liquidity portfolios for its own account) are the key contributors to market price risk in the Nordea Group. To the extent volatile market conditions persist or recur, the fair value of the Nordea Group's bond, derivative and structured credit portfolios, as well as other classes, could fall more than estimated, and therefore cause the Nordea Group to record write-downs. In addition, because the Nordea Group's trading and investment income depends to a great extent on the performance of financial markets, volatile market conditions could result in a significant decline in the Nordea Group's trading and investment income, or result in a trading loss, which, in turn, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

The Nordea Group is subject to extensive regulation that is subject to change: Companies active in the financial services industry, including the Nordea Group, operate under an extensive regulatory regime. The Nordea Group is subject to laws and regulations, administrative actions and policies as well as related oversight from the local regulators in each of the jurisdictions in which it has operations. The Nordea Group is also under the direct supervision and subject to the regulations of the European Central Bank, as a result of the size of its assets. Regulatory developments or any other requirements, restrictions, limitations on the operations of financial institutions and costs involved, or unexpected requirements under, or uncertainty with respect to, the regulatory framework to be applied to the Nordea Group, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

Liquidity risk is inherent in the Nordea Group's operations. Liquidity risk is the risk that the Nordea Group will be unable to meet its obligations as they fall due or meet its liquidity commitments only at an increased cost. A substantial portion of the Nordea Group's liquidity and funding requirements is met through reliance on customer deposits, as well as ongoing access to wholesale funding markets, including issuance of long-term debt market instruments, such as covered bonds. The volume of these funding sources, in particular long-term funding, may be constrained during periods of liquidity stress. Turbulence in the global financial markets and economy may adversely affect the Nordea Group's liquidity and the willingness of certain counterparties and customers to do business with the Nordea Group, which may result in a material adverse effect on the Nordea Group's business and results of operations.

3. Key Information on the Securities

What are the Main Features of the Securities?

<u>Type and Class of Instruments</u>	<u>ISIN</u>	<u>Currency</u>	<u>Number of Instruments</u>	<u>Expiration Date</u>
Bull Certificate on futures	NO0012603416	NOK	2 400 000	Open ended

- (a) **Bull Certificate:** the return of the Instruments depends on the performance of the underlying asset. The price of the Instruments will be adjusted for dividends in the underlying asset. The performance of the Instruments will be the daily performance of the underlying asset multiplied by the predefined leverage. This means that the price of the Instruments increases when the price of the underlying asset increases, and decreases when the price of the underlying asset decreases. Currency fluctuations will also affect the performance of the investment. If the negative performance, on one single day, reaches or is below the stop loss buffer, the Instruments will terminate and part of or the total amount invested will be lost.

- (b) By investing in the Instruments, an investor will be assuming the risk that the Issuer will not be able to make payments on the securities in accordance with their terms. On an insolvency of the Issuer, there is a risk that the investors may lose some or all of their investment. The Instruments constitute unsecured and unsubordinated obligations of the Issuer and rank *pari passu* without any preference among themselves and at least *pari passu* with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future. The Instruments could also be subject to the bail-in power in the event of a resolution of the Issuer under directive 2014/59/EU, as implemented in Finland, and may be written down or converted into other securities (including ordinary shares) if the resolution authority determines that this is necessary in order to restore the viability of the Issuer.
- (c) The Instruments are freely transferable by their terms, although the Base Prospectus summarises certain legal restriction on the offers and sales of Instruments in certain jurisdictions.

Where will the Securities be Traded?

Application has been made for the Instruments to be admitted to listing on Nasdaq First North Sweden and to trading on Nasdaq First North Sweden effective as of the Issue Date.

What are the Key Risks that are Specific to the Securities?

Complexity of the product – The yield structure for the Instruments is sometimes complex and may contain mathematical formulae or relationships which, for an investor, may be difficult to understand and compare with other investment alternatives. It should be noted that the relationship between yield and risk may be difficult to assess.

Leverage Risks – due to the structure of the Instruments, the performance of the underlying asset will affect the price of the Instrument and may lead to larger profits or losses on invested capital than if the investment had been made directly in the underlying asset. This is normally expressed by saying that the Instruments have a leverage effect compared with an investment in the underlying asset, i.e. a change in price (both upwards and downwards) of the underlying asset results, in percentage terms, in a greater change in the value of the Instruments. Consequently, the risk associated with an investment in such Instruments is greater than with an investment in the underlying asset. Such Instruments may become worthless.

There may be no active trading market for the Instruments - The Instruments will be new securities which may not be widely distributed and/or may be unlisted and, even if listed, may not have an active trading market. The lack of an active trading market may result in reduced liquidity for the Instruments, with the result that the investor may have to hold such Instruments until they are redeemed.

Performance of the underlying assets – under the terms of the Instruments, the holders are entitled to yield and payment of any applicable settlement amount, depending on the performance of one or more underlying assets and the applicable yield structure. The performance of the Instruments is affected by the value of the underlying assets at specific points in time during the term of the Instruments, the intensity of fluctuations in the prices of the underlying assets, expectations regarding future volatility, market interest rates, and expected dividends on the underlying assets. In some circumstances the investor may lose all of their invested amount.

Automatic early redemption – The Instruments may be redeemed automatically if certain conditions are met, typically referred to as a "knock". In some circumstances, this may result in a loss of part, or all, an investor's future coupon or interest payments in respect of the Instruments. Because certain costs and expenses are deducted from the issue price, an early redemption of the Instruments may also result in proportionately higher expenses.

Risks relating to market disruption and extraordinary events - underlying assets may be affected by disruption to their normal trading markets, or extraordinary events such as delisting, nationalisation,

bankruptcy, liquidation or dilutive events affecting the relevant underlying asset. For all Instruments, events such as changes in the law or increased costs for risk management may arise. If so, the Issuer may, at its sole discretion, make any adjustments in the composition of the assets and the calculation of the yield or value of Instruments or replace one underlying asset with another underlying asset, as the Issuer deems necessary.

Risks relating to the underlying asset – the return and value of the Instruments will depend on the performance of the Underlying Asset. As the performance of the Instruments are linked to the performance of the Underlying Asset, the investor may risk losing the entire invested amount. The value of an Instrument may, in addition to changes in the price of the Underlying Asset, be impacted by the intensity of the price fluctuations of the Underlying Asset (commonly referred to as volatility), expectations regarding future volatility, market interest rates and expected dividends or other distributions on the Underlying Asset. Investors should be aware that the market price of the Instruments may be volatile due to the performance of the Underlying Asset, and the amount payable under the Instrument to the investor may be less than the original amount paid for an Instrument, or even zero. Changes in the price of the Underlying Asset may not be directly correlated with the price of the Instrument and a small movement in the value of the Underlying Asset may result in a significant change in the value of the Instrument. The Issuer may not be able to control the price or composition of the Underlying Assets. An investor in an Instrument does not have rights that a direct owner of the Underlying Asset would be entitled to, for example receiving dividends or other payments associated with the holding of the Underlying Asset. If the Underlying Asset(s) is denominated in a currency that is different from the currency of the Instruments, investors in the Instruments are also subject to foreign exchange risk and may suffer significant losses even if the value of the Underlying Asset in its currency of denomination is unchanged or has performed favourably for the investor. Previous foreign exchange rates are not necessarily indicative of future foreign exchange rates.

Other risks associated with Instruments may relate, inter alia, to changes in interest rates, changes in exchange rates, whether the Issuer is entitled to redeem the Instruments prematurely, the complexity of the financial instruments, fluctuations in relevant indices, other underlying assets or the financial market, and whether repayment is dependent on circumstances other than the credit-worthiness of the Issuer.

4. Key Information on the Offer of Securities to the Public and/or the Admission to Trading on a Regulated Market

Under which Conditions and Timetable can I Invest in this Security?

- (a) A Public Offer of the Instruments will take place in Norway from and including the Listing Date to and including the Expiration Date (the "**Offer Period**"). The Issuer has consented to the Instruments being made available on Nordnet's online trading platform.

The Instruments will initially be created and held by the Issuer for its own account, in order that they are available for resale to prospective investors from time to time. The Instruments will be offered for purchase over the relevant securities exchange at the price that is the official price quoted on the securities exchange from time to time.

- (b) Application has been made for the Instruments to be admitted to listing on Nasdaq First North Sweden and to trading on Nasdaq First North Sweden effective as of Issue Date.
- (d) No expenses are being charged to an investor in the Instruments by the Issuer.

Who is the Offeror and/or the Person Asking for Admission to Trading?

The Offeror and the person requesting the admission of the Instruments to trading is the Issuer.

The Instruments may also be offered by Nordnet whom the Issuer has appointed as Authorised Offeror's in respect of the Instruments.

Authorised Offeror	Domicile and Country of Incorporation	Legal Form	Law under which it Operates
Nordnet Bank AB (Nordnet)	The Authorised Offeror is incorporated under the laws of Sweden	Limited Liability Company	Swedish Companies Act 2005

Any investor intending to acquire or acquiring any Instruments from an Authorised Offeror will do so, and offers and sales of the Instruments to an investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price, allocation and settlement arrangements.

Why is this Prospectus Summary Being Produced?

- (a) The Offer is being made to provide funding for the Issuer and offer investors a return linked to the performance of the underlying assets. The net proceeds of the issue of the Instruments will be used for the general banking and other corporate purposes of the Issuer and the Nordea Group.
- (b) The offer of the Instruments is not underwritten.
- (c) Authorised Offerors and other third party distributors may be paid fees in relation to the issue of the Instruments. In connection with the issuance and offer of the Instruments, the Issuer will make use of the marketing and customers support services of Nordnet . The Issuer will compensate Nordnet for such services. In addition, the Issuer has entered into an agreement with Nordnet under the terms of which Nordnet will make the Instruments available on Nordnet's online trading platform. Nordnet will receive compensation under the agreement. Save for the foregoing, so far as the Issuer is aware, no person involved in the issue of the Instruments has an interest material to the offer.

Hva er de viktigste risikoene som er spesifikke for Utstederen?

Det globale utbruddet av coronavirus, som har hatt en negativ påvirkning på økonomiene berørt av utbruddet, kan ha en vesentlig negativ innvirkning på Nordea-konsernets virksomhet, økonomiske situasjon og driftsresultater og negativt påvirke Nordea-konsernets tilgang på kapital og likviditet: Utbruddet av COVID-19 (som også ofte omtales som «coronaviruset») som har spredt seg globalt i første halvår av 2020 og skapt uro på flere markeder og har resultert i betydelig usikkerhet rundt utviklingen i de økonomiene som er berørt av utbruddet både i Europa og andre steder. Størstedelen av Nordea-konsernets forretninger er konsentrert i de nordiske landene som har vært, og som forventes å stadig være, berørt av utbruddet av coronavirus i samme grad som en rekke andre europeiske land. Nordea-konsernet påvirkes av utbruddet av coronavirus gjennom dets direkte og indirekte påvirkning på kunder, motparter, medarbeidere og andre interessenter i Nordea-konsernet, både i de nordiske landene og andre steder, som et resultat av, blant annet, offentlige tiltak til gagn for folkehelsen som stengning av butikker og begrensninger på reiseaktivitet og forsamlinger. Det kan ikke gis noen garantier for at de negative konsekvensene av coronaviruset ikke vil føre til en innstramning av likviditetsforholdene, skape finansieringsusikkerhet, eller betydelig påvirke kredittvurderingen til Nordea eller dets datterselskaper. Det kan også i fremtiden bli introdusert nye regulatoriske krav for å imøtekomme bekymringer knyttet til likviditet eller andre negative konsekvenser utbruddet av coronaviruset har kunne hatt på den finansielle sektoren og finansielle institusjoner, slik som Nordea-konsernet, vil også kunne bli gjenstand for tilknyttede forhøyede tilsynskrav. Enhver fremtidig negativ konsekvens av coronavirus, som fortsatt ikke er kjent, kan ha vesentlig negativ påvirkning på Nordea-konsernets virksomhet, økonomiske situasjon og driftsresultater og negativt påvirker Nordea-konsernets mulighet til å, blant annet, møte sine finansielle mål eller å få tilgang på kapital og likviditet på finansielle vilkår som er akseptable for Nordea-konsernet.

Negativ økonomisk utvikling og negative forhold i markedene som Nordea-konsernet har virksomhet i, kan ha negativ virkning på Nordea-konsernets virksomhet og driftsresultater: Nordea-konsernets resultater påvirkes vesentlig av de generelle økonomiske forholdene i de nordiske markedene (Danmark, Finland, Norge og Sverige). Utviklingen i de økonomiske forholdene i andre markeder der Nordea-konsernet for tiden har virksomhet, kan også påvirke resultatene til Nordea-konsernet. Negativ økonomisk utvikling har påvirket og kan fortsette å påvirke Nordea-konsernets virksomhet på mange måter, inkludert blant annet inntekt, formue, likviditet, virksomhetsforhold og/eller finansiell stilling for Nordea-konsernets kunder, som igjen kan redusere Nordea-konsernets kredittverdighet og etterspørsel etter Nordea-konsernets produkter og tjenester. For eksempel, utbruddet av coronavirus og de preventive tiltak som er implementert i

de nordiske landene og andre steder for å begrense spredningen av coronavirus kan ha en negativ påvirkning på låntakerne, hvilket kan resultere i en lavere kreditt-rating og økede kapitalkrav.

Nordea-konsernet er eksponert for markedspriserisiko: Nordea-konsernets kundeorienterte handelsaktiviteter og dets treasuryaktiviteter (der Nordea-konsernet har investeringer og likviditetsporteføljer for egen regning) er de viktigste bidragsyterne til markedspriserisikoen i Nordea-konsernet. Dersom volatile markedsforhold vedvarer eller gjenoppstår, vil den virkelige verdien til Nordea-konsernets porteføljer for obligasjoner, derivater og strukturerte kreditter, samt andre investeringsklasser, kunne falle mer enn beregnet og således tvinge Nordea-konsernet til å foreta nedskrivninger. I tillegg, siden Nordea-konsernets handels- og investeringsinntekter i stor grad avhenger av utviklingen i finansmarkedene, kan volatile markedsforhold føre til en betydelig nedgang i Nordea-konsernets handels- og investeringsinntekter, eller resultere i tap på trading, som igjen kan ha en vesentlig negativ effekt på Nordea-konsernets virksomhet, finansielle stilling og driftsresultater.

Nordea-konsernet er underlagt omfattende regulering som kan endre seg: Virksomheten til selskaper som er aktive i bransjen for finansielle tjenester, inkludert Nordea-konsernet, er underlagt et omfattende regulatorisk regime. Nordea-konsernet er underlagt lover og forskrifter, administrative tiltak og retningslinjer, samt tilknyttet tilsyn fra lokale tilsynsmyndigheter i hver jurisdiksjon konsernet har virksomheter i. Som et resultat av størrelsen på sine aktiva er Nordea-konsernet også underlagt direkte tilsyn av og er gjenstand for forskriftene til Den europeiske sentralbanken. Regulatorisk utvikling eller alle andre krav, restriksjoner eller begrensninger av driften til finansinstitusjoner og tilknyttede kostnader, eller uventede krav under eller usikkerhet i sammenheng med det regulatoriske rammeverket som skal anvendes i Nordea-konsernet, kan ha en vesentlig negativ effekt på Nordea-konsernets virksomhet, finansielle stilling og driftsresultater.

Likviditetsrisiko er iboende i Nordea-konsernets virksomheter. Likviditetsrisiko er risikoen for at Nordea-konsernet ikke vil være i stand til å oppfylle sine forpliktelser etter hvert som de forfaller eller bare kan oppfylle sine likviditetsforpliktelser til økte kostnader. En vesentlig del av Nordea-konsernets likviditets- og finansieringskrav oppfylles avhengig av kundeinnskudd, samt kontinuerlig tilgang til kapitalmarkedene, inkludert utstedelse av langsiktige lånemarkedsinstrumenter som obligasjoner med fortrinnsrett. Volumet på disse finansieringskildene, spesielt langsiktig finansiering, kan bli begrenset i perioder med anstrengt likviditet. Turbulens i de globale finansmarkedene og den globale økonomien kan ha en negativ innvirkning på Nordea-konsernets likviditet samt visse motparters og kunders vilje til å gjøre forretninger med Nordea-konsernet. Dette kan føre til vesentlige negative virkninger på Nordea-konsernets virksomhet og driftsresultat.

3. Nøkkelopplysninger om Instrumentene

Hva er Instrumentenes viktigste egenskaper?

<u>Type og Klasse av Instrumenter</u>	<u>ISIN</u>	<u>Valuta</u>	<u>Antall Instrumenter</u>	<u>Utløpsdato</u>
Bull sertifikat med futureskontrakter som underliggende	NO0012603416	NOK	2400000	Evigvarende

- (a) **Bull-Sertifikat:** Avkastningen på Instrumentene avhenger av utviklingen til det underliggende aktivumet. Kursen på Instrumentene vil bli justert for utbytte i det underliggende aktivumet. Utviklingen av Instrumentene vil tilsvare den daglige utviklingen til det underliggende aktivumet multiplisert med den forhåndsdefinerte giringen. Dette betyr at kursen på Instrumentene øker når kursen på det underliggende aktivumet øker, og synker når kursen på det underliggende aktivumet synker. Valutasvingninger vil også påvirke investerings utvikling. Hvis en negativ utvikling i det underliggende aktiva, på én handelsdag, er på eller over Stop-Loss bufferen, forfaller produktet og investor vil ha tapt hele eller deler av sitt investerte beløp.

- (b) Ved å investere i Instrumentene påtar investoren seg risikoen for at Utstederen ikke vil være i stand til å gjennomføre utbetalinger på verdipapirene i henhold til deres vilkår. Hvis Utstederen blir insolvent, er det risiko for at investorene vil tape hele eller deler av sin investering. Instrumentene består av usikrede og ordinære forpliktelser fra Utstederen og er pari passu uten noen intern preferanse mellom hverandre og minst pari passu med alle andre utestående, nåværende og fremtidige, ordinære og usikrede gjeldsforpliktelser fra Utstederen. Instrumentene kan også bli gjenstand for krisehåndteringsordningen under direktiv 2014/59/EU, som implementert i Finland, dersom Utstederen blir gjenstand for en avvikling og de kan bli nedskrevet eller konvertert til andre verdipapirer (inkludert til ordinære aksjer) dersom krisehåndteringsmyndigheten bestemmer at dette er nødvendig for å gjenopprette Utstederens levedyktighet.
- (c) Instrumentene er fritt omsettelige i henhold til deres vilkår, men Grunnprospektet oppsummerer likevel visse rettslige begrensninger rundt tilbud og salg av Instrumentene i noen jurisdiksjoner.

Hvor vil verdipapirene bli handlet?

Det vil bli søkt om opptak til børsnotering på Nasdaq First North Sweden med virkning fra Issue Date.

Hva er de viktigste risikoene som er spesifikke for Instrumentene?

Produktets kompleksitet – Instrumentenes avkastningsstruktur er i noen tilfeller kompleks og kan inneholde matematiske formler eller forhold som, for en investor, kan være vanskelige å forstå og sammenligne med andre investeringsalternativer. Vær oppmerksom på at det kan være vanskelig å vurdere forholdet mellom avkastning og risiko.

Giringsrisikoer – På grunn av Instrumentenes struktur vil utviklingen av det underliggende aktivumet påvirke kursen på Instrumentet, og dette kan medføre større fortjeneste eller tap på investert kapital enn ved en direkte investering i det underliggende aktivumet. Dette blir som regel uttrykt ved å si at Instrumentene har en giringseffekt sammenlignet med en investering i det underliggende aktivumet, dvs. en kursendring (både positiv og negativ) i det underliggende aktivumet fører til en prosentvis større endring i Instrumentenes verdi. Følgelig er risikoen knyttet til en investering i slike Instrumenter større enn ved en investering i det underliggende aktivumet. Slike Instrumenter kan bli verdiløse.

Muligheten for at det ikke finnes noe aktivt handelsmarked for Instrumentene – Instrumentene vil være nye verdipapirer, og det er mulig at disse ikke er vidt distribuert og/eller ikke er børsnoterte, og at de selv om de er børsnoterte, ikke nødvendigvis har noe aktivt handelsmarked. Et manglende aktivt handelsmarked kan medføre redusert likviditet i Instrumentene, med den følge at investoren eventuelt må beholde slike Instrumenter til de innløses.

Utviklingen i de underliggende aktiva – Under Instrumentenes vilkår har eierne krav på avkastning og utbetaling av ethvert gjeldende innløsningsbeløp, avhengig av utviklingen til et eller flere underliggende aktiva og den gjeldende avkastningsstrukturen. Instrumentenes utvikling vil til enhver tid i Instrumentenes levetid være påvirket av verdien til de underliggende aktiva, intensiteten i kurssvingningene til de underliggende aktiva, forventninger angående fremtidig volatilitet, markedsrente og forventede utbytter i de underliggende aktiva. I noen tilfeller kan investoren tape all sin investerte kapital.

Automatisk førtidig innløsning – Instrumentene kan bli automatisk innløst før deres planlagte forfallsdato dersom visse betingelser er oppfylt, vanligvis omtalt som en «knock». I noen tilfeller kan dette føre til at en investors krav på fremtidige utbetalinger av kupong- eller rentebeløp helt eller delvis går tapt. Siden visse kostnader og utgifter blir trukket fra emisjonskursen, kan en førtidig innløsning medføre proporsjonalt høyere utgifter.

Risikoer knyttet til markedsavbrudd og ekstraordinære hendelser – Underliggende aktiva kan påvirkes av avbrudd i deres normale handelsmarkeder eller ekstraordinære hendelser som for eksempel når en notering tas av børsen, nasjonalisering, konkurs, avvikling eller utvannende hendelser som påvirker det aktuelle

underliggende aktivumet. Hendelser som for eksempel endringer i lovgivning eller økte kostnader for risikostyring, kan oppstå og berøre alle Instrumenter. Hvis det er tilfellet, kan Utstederen etter eget skjønn foreta justeringer i sammensetningen av aktivaene og beregningen av avkastningen eller Instrumentenes verdi eller erstatte et underliggende aktivum med et annet underliggende aktivum, slik Utstederen anser det nødvendig.

Risiko knyttet til det underliggende aktiva – avkastning og verdien av Instrumentene vil avhenge av utviklingen i det Underliggende Aktiva. Ettersom utviklingen av Instrumentet er knyttet til utviklingen av det Underliggende Aktiva, risikerer investorer å tape hele det investerte beløpet. Verdien av et Instrument vil, i tillegg til endringen i prisen til det Underliggende Aktiva, være påvirket av intensiteten av prisendringer i det Underliggende Aktiva (vanligvis benevnt som volatilitet), forventinger vedrørende fremtidig volatilitet, markedsrenter og forventet utbytte eller andre avkastninger på det Underliggende Aktiva. Investorer bør være oppmerksomme på at markedsprisen for instrumentene kan være volatile som følge av utviklingen i det Underliggende Aktiva, og at beløpet som investorer skal motta i henhold til Instrumentet vil kunne være mindre enn det de opprinnelig har betalt for Instrumentet, eller til og med null. Endringer i prisen på det Underliggende Aktiva er ikke nødvendigvis direkte korrelerende med prisen på Instrumentet, og en liten endring i verdien av det Underliggende Aktiva kan føre til en vesentlig endring i verdien av Instrumentet. Utstederen vil ikke kunne kontrollere prisen eller sammensetningen av det Underliggende Aktiva. En investor i et Instrument har ikke de rettigheter som en direkte eier av det Underliggende Aktiva har, f.eks. retten til å motta utbytte og andre betalinger i forbindelse med å være innehaver av det Underliggende Aktiva. Hvis de(t) Underliggende Aktiva(er) er denominert i en annen valuta enn den som Instrumentet er denominert i, vil investorene i Instrumentet også være eksponert mot valutakursrisiko og kan lide vesentlige tap selv om verdien av det Underliggende Aktiva er uendret målt i den valuta som den er denominert i, eller har utviklet seg positivt. Historiske valutakurser er ikke nødvendigvis en indikasjon på fremtidige valutakurser.

Andre risikoer i forbindelse med Instrumenter kan, blant annet, være relatert til endringer i rentesatser og vekslingskurser, om Utstederen er berettiget til å førtidig innløse Instrumentene, kompleksiteten til de finansielle instrumentene, svingninger i de aktuelle indeksene, andre underliggende aktiva eller finansmarkedet, og om tilbakebetaling avhenger av andre omstendigheter enn Utstederens kredittverdighet.

4. Nøkkelopplysninger om det Offentlige Tilbudet av Instrumenter og/eller opptak til handel i et regulert marked

Hvilke vilkår og hvilken tidsplan vil gjelde dersom jeg investerer i dette Instrumentet?

- (a) Et Offentlig Tilbud om Instrumentene vil bli lagt frem i Norge fra og med Utstedelsesdatoen til og med Utløpsdatoen ("**Tilbudsperioden** "). Utstederen har samtykket i at Instrumentene blir gjort tilgjengelige på Nordnets handelsplattform på nett..

Instrumentene vil innledningsvis bli opprettet og beholdt av Utstederen for egen regning slik at de er tilgjengelige for videresalg til fremtidige investorer fra tid til annen. Instrumentene vil bli tilbudt til salg på den relevante verdipapirbørsen til den kursen som offisielt noteres på verdipapirbørsen fra tid til annen.

- (b) Det vil bli søkt om opptak til handel på Nasdaq First North Sweden med virkning fra Utstedelsesdatoen.
- (c) Ingen utgifter blir belastet en investor i Instrumentene av Utstederen.

Hvem er Tilbyderen og/eller personen som søker om opptak til handel?

Tilbyderen og personen, som søker om opptak av Instrumentene til handel, er Utstederen. Instrumentene kan også bli tilbudt av Nordnet som Utstederen har utpekt som Godkjente Tilbydere av Instrumentene.

Godkjent Tilbyder	Land der virksomheten er hjemmehørende og registrert	Rettslig organisasjonsform	Gjeldende lovgivning for virksomheten
Nordnet Bank AB (Nordnet)	Den Godkjente Tilbyderen er underlagt lovgivningen i Sverige	Aksjeselskap	Den svenske aksjeloven av 2005

Når en investor har til hensikt å kjøpe eller kjøper noen Instrumenter fra en Godkjent Tilbyder, så skjer tilbudet og salget av slike Instrumenter til en investor fra slik Godkjent Tilbyder i henhold til de vilkår og andre ordninger som gjelder mellom den Godkjente Tilbyderen og Investoren, inkludert ordninger i forbindelse med pris, allokasjon og oppgjør.

Hvorfor utarbeides dette prospektet?

- (a) Tilbudet fremlegges til Utstederens finansieringsformål og for å gi investorer en avkastning relatert til utviklingen i de underliggende aktivaene. Nettoprovenyet fra utstedelsen av Instrumentene vil bli brukt til Utstederens og Nordea-konsernets generelle bankformål og andre foretaksformål.
- (b) Det gis ingen fulltegningsgaranti for tilbudet av Instrumentene.
- (c) I forbindelse med utstedelsen av Instrumentene kan det bli betalt honorarer/gebyrer til Godkjente Tilbydere og andre tredjeparts distributører. I forbindelse med utstedelsen av Instrumentene vil Utstederen benytte seg av markedsførings- og kundestøttetjenester fra Nordnet Bank AB («Nordnet»). Utstederen vil gi Nordnet kompensasjon for slike tjenester. I tillegg har Utstederen inngått en avtale med Nordnet, og Nordnet vil under avtalens vilkår gjøre Instrumentene tilgjengelige på Nordnets handelsplattform på nett. I henhold til avtalen vil Nordnet motta kompensasjon for dette. Med forbehold om det foregående, og etter Utsteders beste viten, har ingen av de personene som er involverte i utstedelsen av Instrumentene, interesser av vesentlig betydning for tilbudet.
