

IMPORTANT NOTICE

In accessing the attached final terms (the "Final Terms") you agree to be bound by the following terms and conditions.

The information contained in the Final Terms may be addressed to and/or targeted at persons who are residents of particular countries only as specified in the Final Terms and/or in the Base Prospectus (as defined in the Final Terms) and is not intended for use and should not be relied upon by any person outside those countries and/or to whom the offer contained in the Final Terms is not addressed. **Prior to relying on the information contained in the Final Terms, you must ascertain from the Final Terms and/or the Base Prospectus whether or not you are an intended addressee of the information contained therein.**

Neither the Final Terms nor the Base Prospectus constitutes an offer to sell or the solicitation of an offer to buy securities in the United States or in any other jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration, exemption from registration or qualification under the securities law of any such jurisdiction.

The securities described in the Final Terms and the Base Prospectus have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") and may not be offered or sold directly or indirectly within the United States or to, or for the account or benefit of, U.S. persons or to persons within the United States of America (as such terms are defined in Regulation S under the Securities Act ("**Regulation S**")). The securities described in the Final Terms will only be offered in offshore transactions to non-U.S. persons in reliance upon Regulation S.

Issue of Unlimited Turbo Short
under the Programme for the
Issuance of Warrants and Certificates

The Base Prospectus referred to below (as completed by these Final Terms) has been prepared on the basis that, except as provided in sub-paragraph (b) below, any offer of Instruments in any Member State of the European Economic Area or in the United Kingdom will be made pursuant to an exemption under the Prospectus Regulation, from the requirement to publish a prospectus for offers of the Instruments. Accordingly any person making or intending to make an offer of the Instruments may only do so:

- (a) in circumstances in which no obligation arises for the Issuer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation, in each case, in relation to such offer; or
- (b) in those Public Offer Jurisdictions mentioned in Paragraph 7 of Part B below, provided such person is one of the persons described in Paragraph 7 of Part B below and which satisfies the conditions set out therein and that such offer is made during the Offer Period specified for such purpose therein.

The Issuer has not authorised, nor does it authorise, the making of any offer of Instruments in any other circumstances. The expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129.

The Base Prospectus referred to below is valid until and including 17 December 2021. The succeeding base prospectus relating to the Programme shall be made available for viewing during normal business hours at, and copies may be obtained from, the principal office of the Issuer at Satamaradankatu 5, FI-00020 Nordea, Helsinki, Finland and from www.nordea.com.

PART A – CONTRACTUAL TERMS

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (the "**Conditions**") set forth in the base prospectus dated 18 December 2020 and the supplemental base prospectuses dated 10 February 2021 and 3 March 2021 which together constitute a base prospectus (the "**Base Prospectus**") for the purposes of the Prospectus Regulation. This document constitutes the Final Terms of the Instruments described herein for the purposes of the Prospectus Regulation and must be read in conjunction with the Base Prospectus in order to obtain all relevant information. A summary of the Instruments is annexed to these Final Terms. Full information on the Issuer and the offer of the Instruments is only available on the basis of the combination of these Final Terms and the Base Prospectus as supplemented. The Base Prospectus, the base prospectus supplements and these Final Terms are available for viewing during normal business hours at, and copies may be obtained from, the principal office of the Issuer at Satamaradankatu 5, FI-00020 Nordea, Helsinki, Finland and from www.nordea.com.

* Nordea's policy has been to amortise resolution fees linearly over the year. Starting from 1 January 2019, Nordea has recognised resolution fees at the beginning of the year when the legal obligation to pay arises and presents the related expenses as "other expenses". The change mainly reflects the change in the structure of the resolution fees following the re-domiciliation of the parent company of the Nordea Group from Sweden to Finland. The comparative figures for the year ending 31 December 2018 have been restated accordingly to enhance comparability. The figures marked with one asterisk (*) have been restated to reflect the changed recognition and presentation of resolution fees.

** Changes have been made to the presentation of fair value adjustments to the margin component of loans in "hold" portfolios mandatorily held at fair value. The comparative figures marked with two asterisks (**) have been restated accordingly. Please refer to Note 1 to Nordea's fourth quarter and full year results for 2020 for further information.

What are the Key Risks Specific to the Issuer?

The global coronavirus outbreak, which has negatively impacted the economies exposed to the outbreak, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations and adversely affect the Nordea Group's ability to access capital and liquidity: The outbreak of COVID-19 (also commonly referred to as the "coronavirus") has spread rapidly globally in recent months and disrupted various markets and resulted in severe uncertainty about the development of the economies affected by the outbreak both in Europe and elsewhere. The majority of the Nordea Group's operations are concentrated in the Nordic countries that have been, and are expected to continue to be, exposed to the coronavirus outbreak in a similar manner as a number of other European countries. The Nordea Group is affected by the coronavirus outbreak through its direct and indirect impact on the customers, counterparties, employees and other stakeholders of the Nordea Group, both in the Nordic countries and elsewhere, as a result of, among others, public health measures, such as business closings and restrictions on travel and gatherings. Any of the foregoing, and any future adverse consequences related to the coronavirus outbreak not yet known, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations and adversely affect the Nordea Group's ability to access capital and liquidity on financial terms acceptable to the Nordea Group.

Negative economic developments and conditions in the markets in which the Nordea Group operates can adversely affect the Nordea Group's business and results of operations: Nordea Group's

performance is significantly influenced by the general economic conditions in the Nordic markets (Denmark, Finland, Norway and Sweden). Development of the economic conditions in other markets where the Nordea Group currently operates can also affect the Nordea Group's performance. Adverse economic developments have affected and may continue to affect the Nordea Group's business in a number of ways, including, among others, the income, wealth, liquidity, business and/or financial condition of the Nordea Group's customers, which, in turn, could further reduce the Nordea Group's credit quality and demand for the Nordea Group's financial products and service. For example, the coronavirus outbreak and the preventive measures implemented in the Nordic countries and elsewhere to contain its spread could have an adverse effect on the Group's customers, which, in turn, could result in decreased credit quality and increased provisioning levels.

The Nordea Group is exposed to market price risk: The Nordea Group's customer-driven trading operations and its treasury operations (where the Nordea Group holds investment and liquidity portfolios for its own account) are the key contributors to market price risk in the Nordea Group. To the extent volatile market conditions persist or recur, the fair value of the Nordea Group's bond, derivative and structured credit portfolios, as well as other classes, could fall more than estimated, and therefore cause the Nordea Group to record write-downs. In addition, because the Nordea Group's trading and investment income depends to a great extent on the performance of financial markets, volatile market conditions could result in a significant decline in the Nordea Group's trading and investment income, or result in a trading loss, which, in turn, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

The Nordea Group is subject to extensive regulation that is subject to change: Companies active in the financial services industry, including the Nordea Group, operate under an extensive regulatory regime. The Nordea Group is subject to laws and regulations, administrative actions and policies as well as related oversight from the local regulators in each of the jurisdictions in which it has operations. The Nordea Group is also under the direct supervision and subject to the regulations of the European Central Bank, as a result of the size of its assets. Regulatory developments or any other requirements, restrictions, limitations on the operations of financial institutions and costs involved, or unexpected requirements under, or uncertainty with respect to, the regulatory framework to be applied to the Nordea Group, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

Liquidity risk is inherent in the Nordea Group's operations. Liquidity risk is the risk that the Nordea Group will be unable to meet its obligations as they fall due or meet its liquidity commitments only at an increased cost. A substantial portion of the Nordea Group's liquidity and funding requirements is met through reliance on customer deposits, as well as ongoing access to wholesale funding markets, including issuance of long-term debt market instruments, such as covered bonds. The volume of these funding sources, in particular long-term funding, may be constrained during periods of liquidity stress. Turbulence in the global financial markets and economy may adversely affect the Nordea Group's liquidity and the willingness of certain counterparties and customers to do business with the Nordea Group, which may result in a material adverse effect on the Nordea Group's business and results of operations.

Operational risks, including risks in connection with investment advice, may affect the Nordea Group's business. The Nordea Group's business operations are dependent on the ability to process a large number of complex transactions across different markets in many currencies. The Nordea Group's operations are carried out through a number of entities. Operational losses, including monetary damages, reputational damage, costs, and direct and indirect financial losses and/or write-downs, may result from many different sources. As a part of its banking and asset management activities, the Nordea Group also provides its customers with investment advice, access to internally as well as externally managed funds and serves as custodian of third party funds. In the event of losses incurred by its customers due to investment advice from the Nordea Group, or the misconduct or fraudulent actions of external fund managers, the Nordea Group's customers may seek compensation from the Nordea Group. Although the Nordea Group has implemented risk controls and taken other actions to mitigate exposures and/or losses, there can be no

assurances that such procedures will be effective in controlling each of the operational risks faced by the Nordea Group.

(a) **Unlimited Turbo Short:** The return of the Instruments depends on the performance of the underlying asset during the lifetime of the Instruments. The price of the Instruments will be

adjusted for dividends in the underlying asset. The price of the Instruments will increase when the price of the underlying asset decreases, and decrease when the price of the underlying asset increases. If the price of the underlying asset is at or above the stop-loss level, the Instruments will terminate and all amount invested will be lost. The stop-loss level and the financing level will be adjusted on a daily basis. Currency fluctuations will also affect the performance of the investment. For unlimited turbos the stop-loss level is always equal to the financing level.

- (b) By investing in the Instruments, an investor will be assuming the risk that the Issuer will not be able to make payments on the securities in accordance with their terms. On an insolvency of the Issuer, there is a risk that the investors may lose some or all of their investment. The Instruments constitute unsecured and unsubordinated obligations of the Issuer and rank *pari passu* without any preference among themselves and at least *pari passu* with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future. The Instruments could also be subject to the bail-in power in the event of a resolution of the Issuer under directive 2014/59/EU, as implemented in Finland, and may be written down or converted into other securities (including ordinary shares) if the resolution authority determines that this is necessary in order to restore the viability of the Issuer.
- (c) The Instruments are freely transferable by their terms, although the Base Prospectus summarises certain legal restriction on the offers and sales of Instruments in certain jurisdictions.

Where will the Securities be Traded?

Application has been made for the Instruments to be admitted to listing on Nasdaq First North Sweden and to trading on Nasdaq First North Sweden effective as of the Issue Date.

What are the Key Risks that are Specific to the Securities?

Complexity of the product – The yield structure for the Instruments is sometimes complex and may contain mathematical formulae or relationships which, for an investor, may be difficult to understand and compare with other investment alternatives. It should be noted that the relationship between yield and risk may be difficult to assess.

Leverage Risks – due to the structure of the Instruments, the performance of the underlying asset will affect the price of the Instrument and may lead to larger profits or losses on invested capital than if the investment had been made directly in the underlying asset. This is normally expressed by saying that the Instruments have a leverage effect compared with an investment in the underlying asset, i.e. a change in price (both upwards and downwards) of the underlying asset results, in percentage terms, in a greater change in the value of the Instruments. Consequently, the risk associated with an investment in such Instruments is greater than with an investment in the underlying asset. Such Instruments may become worthless.

There may be no active trading market for the Instruments - The Instruments will be new securities which may not be widely distributed and/or may be unlisted and, even if listed, may not have an active trading market. The lack of an active trading market may result in reduced liquidity for the Instruments, with the result that the investor may have to hold such Instruments until they are redeemed.

Performance of the underlying assets – under the terms of the Instruments, the holders are entitled to yield and payment of any applicable settlement amount, depending on the performance of one or more underlying assets and the applicable yield structure. The performance of the Instruments is affected by the value of the underlying assets at specific points in time during the term of the Instruments, the intensity of fluctuations in the prices of the underlying assets, expectations regarding future volatility, market interest rates, and expected dividends on the underlying assets. In some circumstances the investor may lose all of their invested amount.

Automatic early redemption – The Instruments may be redeemed automatically if certain conditions are

met, typically referred to as a "knock". In some circumstances, this may result in a loss of part, or all, an investor's future coupon or interest payments in respect of the Instruments. Because certain costs and expenses are deducted from the issue price, an early redemption of the Instruments may also result in proportionately higher expenses.

Currency fluctuations and exchange rates as underlying assets – where the underlying asset is an exchange rate, or is listed in a currency other than investor's currency, exchange rate fluctuations may affect the yield on the Instruments. Exchange rates for currencies may be affected by complex political and economic factors, including the relative rate of inflation, the balance of payments between countries, the size of the government budget surplus or deficit, and the monetary, tax and/or trade policies adopted by the relevant currencies' governmental bodies. Currency fluctuations can also affect the value or level of other underlying assets in complex ways. If such currency fluctuations cause the value or level of the underlying assets to vary, the value or level of the Instruments may fall. If the value or level of one or more underlying asset is issued in a currency other than the currency in which the Instrument is issued, investors may be exposed to an increased risk associated with foreign currency exchange rates. Previous exchange rates do not necessarily serve as indications of future exchange rates for foreign currencies.

Risks relating to market disruption and extraordinary events - underlying assets may be affected by disruption to their normal trading markets, or extraordinary events such as delisting, nationalisation, bankruptcy, liquidation or dilutive events affecting the relevant underlying asset. For all Instruments, events such as changes in the law or increased costs for risk management may arise. If so, the Issuer may, at its sole discretion, make any adjustments in the composition of the assets and the calculation of the yield or value of Instruments or replace one underlying asset with another underlying asset, as the Issuer deems necessary.

Indices as underlying assets – Investors in instruments which are based on an index as underlying asset may, upon exercise of such Instruments, receive a lower payment than if he or she had invested directly in the shares/assets that comprise the index. The sponsor of any index may add, remove, or replace components or make methodological changes which may affect the level of such index and hence the return which is to be paid to investors in the Instruments. The Nordea Group may also participate in creating, structuring and maintaining index portfolios or strategies and for which it may act as index sponsor (collectively, "Proprietary Indices"). The Issuer may therefore face conflicts of interest between its obligations as the Issuer of Instruments and its role (or the role of its affiliates) as the composers, promoters, designers or administrators of Proprietary Indices.

Futures Contracts as underlying assets – The price of a futures contract on an underlying asset will generally be at a premium or a discount to the spot price of the relevant asset. This is due to factors such as the need to adjust the spot price of an asset to take account of related expenses, and different methods being used to evaluate the spot price and futures markets. In addition, and depending on the underlying asset, there can be significant differences in the liquidity of the spot and futures markets. Instruments linked directly to the relevant asset may therefore provide a different return than Instruments linked to a futures contract. Investments in futures contracts also involve other risks, such as illiquidity arising from daily trading limits.

Risks relating to short exposures – a "long" exposure means that the performance of the Instrument will appreciate when the value of the underlying asset increases. Conversely Instruments that have a "short" exposure, including Bear Certificates, will decline in value where the value of the underlying asset increases. A rise in the value of the underlying asset could therefore result in the investor losing some or all of the invested capital.

Other risks associated with Instruments may relate, inter alia, to changes in interest rates, changes in exchange rates, whether the Issuer is entitled to redeem the Instruments prematurely, the complexity of the financial instruments, fluctuations in relevant indices, other underlying assets or the financial market, and whether repayment is dependent on circumstances other than the credit-worthiness of the Issuer.

4. Key Information on the Offer of Securities to the Public and/or the Admission to Trading on a Regulated Market

Under which Conditions and Timetable can I Invest in this Security?

- (a) A Public Offer of the Instruments will take place in Sweden from and including the Listing Date to and including the Expiration Date (the "**Offer Period**"). The Issuer has consented to the Instruments being made available on Nordnet's online trading platform.

The Instruments will initially be created and held by the Issuer for its own account, in order that they are available for resale to prospective investors from time to time. The Instruments will be offered for purchase over the relevant securities exchange at the price that is the official price quoted on the securities exchange from time to time.

- (b) Application has been made for the Instruments to be admitted to listing on Nasdaq First North Sweden and to trading on Nasdaq First North Sweden effective as of Issue Date.
- (d) No expenses are being charged to an investor in the Instruments by the Issuer.

Who is the Offeror and/or the Person Asking for Admission to Trading?

The Offeror and the person requesting the admission of the Instruments to trading is the Issuer.

The Instruments may also be offered by Nordnet whom the Issuer has appointed as Authorised Offeror's in respect of the Instruments.

Authorised Offeror	Domicile and Country of Incorporation	Legal Form	Law under which it Operates
Nordnet Bank AB (Nordnet)	The Authorised Offeror is incorporated under the laws of Sweden	Limited Liability Company	Swedish Companies Act 2005

Any investor intending to acquire or acquiring any Instruments from an Authorised Offeror will do so, and offers and sales of the Instruments to an investor by an Authorised Offeror will be made, in accordance with any terms and other arrangements in place between such Authorised Offeror and such Investor including as to price, allocation and settlement arrangements.

Why is this Prospectus Summary Being Produced?

- (a) The Offer is being made to provide funding for the Issuer and offer investors a return linked to the performance of the underlying assets. The net proceeds of the issue of the Instruments will be used for the general banking and other corporate purposes of the Issuer and the Nordea Group.
- (b) The offer of the Instruments is not underwritten.
- (c) Authorised Offerors and other third party distributors may be paid fees in relation to the issue of the Instruments. In connection with the issuance and offer of the Instruments, the Issuer will make use of the marketing and customers support services of Nordnet . The Issuer will compensate Nordnet for such services. In addition, the Issuer has entered into an agreement with Nordnet under the terms of which Nordnet will make the Instruments available on Nordnet's online trading platform. Nordnet will receive compensation under the agreement. Save for the foregoing, so far as the Issuer is aware, no person involved in the issue of the Instruments has an interest material to the offer.

* Nordeas policy har varit att amortera resolutionsavgifter linjärt över verksamhetsåret. Med start från den 1 januari 2019 har Nordea erkänt resolutionsavgifter i början av året när den legala betalningsskyldigheten uppstår och presenterar därtill relaterade kostnader som "övriga kostnader". Förändringen speglar främst ändringen av strukturen för resolutionsavgifterna som följer av att moderbolaget inom Nordeakoncernen har flyttats från Sverige till Finland. Jämförelsetalen för verksamhetsåret som avslutades den 31 december 2018 har justerats för att förstärka jämförbarheten. De siffror som är markerade med en asterisk (*) har justerats för att spegla den förändrade presentationen av resolutionsavgifter.

Presentationen av verkligt värde-justeringar av marginalkomponenten för lånefordringar i portföljer där avsikten är att behålla instrumenten till förfall, och som obligatoriskt värderas till verkligt värde, har ändrats. De jämförelsetal som är markerade med två asterisker () har justerats i enlighet därmed. Vänligen se not 1 i Nordeas delårsrapport för det fjärde kvartalet 2020 för ytterligare information.

Vad är de centrala riskerna specifika för Emittenten?

Det globala coronavirusutbrottet har påverkat de ekonomier som har utsatts för det negativt och skulle kunna ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och rörelseresultat samt inverka negativt på Nordeakoncernens tillgång till likviditet och till kapitalmarknaden: Utbrottet av COVID-19 (vilket ofta refereras till som "coronaviruset") har haft en hastig global spridning under de senaste månaderna och orsakat störningar på flera marknader liksom kraftig osäkerhet gällande utvecklingen i de ekonomier som har drabbats av utbrottet, både inom Europa och på andra platser. Merparten av Nordeakoncernens verksamhet är lokaliserad i de nordiska länderna, vilka har utsatts för och förväntas fortsätta utsättas för coronavirusutbrottet på ett liknande sätt som ett flertal andra europeiska länder. Som ett resultat bland annat av åtgärder för att främja folkhälsan, såsom att verksamheter stängs ned och att restriktioner avseende resande och folksamlingar införs, påverkas Nordeakoncernen av coronavirusutbrottet genom dess direkta och indirekta inverkan på kunder, motparter, anställda och andra

intressenter, såväl i de nordiska länderna som på andra platser. Det ovan nämnda, och eventuella framtida negativa följder kopplade till coronavirusutbrottet som ännu inte är kända skulle kunna ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och rörelseresultat samt inverka negativt på Nordeakoncernens tillgång till likviditet och till kapitalmarknaden på villkor som är godtagbara för Nordeakoncernen.

Negativ ekonomisk utveckling och förhållanden på marknaden på vilken Nordeakoncernen verkar kan ha en negativ inverkan på Nordeakoncernens verksamhet och rörelseresultat: Nordeakoncernens resultat påverkas i hög grad av generella ekonomiska förhållanden på de nordiska marknaderna (Danmark, Finland, Norge och Sverige). Utvecklingen vad gäller de ekonomiska förhållandena på andra marknader där Nordeakoncernen verkar kan också påverka Nordeakoncernens resultat. Negativ ekonomisk utveckling har påverkat, och kan komma att fortsätta påverka Nordeakoncernens verksamhet på flera sätt, bland annat Nordeakoncernens kunders intäkter, tillgångar, likviditet, verksamhet och/eller finansiell status, vilket i sin tur kan försämra Nordeakoncernens kreditvärdighet samt efterfrågan på Nordeakoncernens finansiella produkter och tjänster. Exempelvis skulle coronavirusutbrottet och de preventiva åtgärder som har implementerats i de nordiska länderna och på andra platser i syfte att begränsa dess spridning kunna ha en negativ inverkan på Nordeakoncernens kunder vilket i sin tur kan leda till en försämrad kreditvärdighet och ökade avsättningar.

Nordeakoncernen är utsatt för marknadsprisrisk: Nordeakoncernens kunddrivna värdepappershandel och dess treasury-funktion (där Nordeakoncernen håller investerings- och likviditetsportföljer för egen räkning) är de största bidragande faktorerna till marknadsprisrisk i Nordeakoncernen. Till den del volatila marknadsförhållanden håller i sig eller återkommer, kan värdet på Nordeakoncernens obligations-, derivat- och strukturerade kreditportföljer, likväl som andra typer av instrument, minska mer än beräknat, och därför medföra nedskrivningar. Utöver det kan volatila marknadsförhållanden, på grund av att Nordeakoncernens handels- och investeringsintäkter till stor del är beroende av förhållandena på de finansiella marknaderna, resultera i en märkbar nedgång i Nordeakoncernens handels- och investeringsintäkter, eller resultera i en handelsförlust, vilket i sin tur kan ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och verksamhetsresultat.

Nordeakoncernen är föremål för omfattande regelverk som är föremål för förändringar: Alla bolag verksamma inom den finansiella sektorn, inklusive Nordeakoncernen, bedriver sin verksamhet under omfattande regulatoriska regelverk. Nordeakoncernen är föremål för tillsyn och måste följa ett stort antal lagar och regler, administrativa påbud och policys i de olika jurisdiktioner som koncernen verkar inom. På grund av storleken på Nordeakoncernens tillgångar står den också under direkt tillsyn av Europeiska Centralbanken och är föremål för dess regelverk. Regulatoriska förändringar och andra krav, restriktioner och begränsningar vad gäller finansiella instituts verksamhet och kostnader hänförliga därtill, eller oväntade krav under, eller osäkerhet kring, det regulatoriska ramverk som Nordeakoncernen träffas av, kan ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och verksamhetsresultat.

Det finns en inneboende likviditetsrisk i Nordeakoncernens verksamhet: Likviditetsrisk är risken för att Nordeakoncernen inte ska kunna betala sina skulder när de förfaller eller nå upp till likviditetsåtaganden endast till en högre kostnad. En stor del av Nordeakoncernens likviditets- och finansieringskrav uppfylls genom insättningar från kunder, samt kontinuerlig tillgång till kapitalmarknaderna, bland annat utfärdandet av långfristiga skuldebrev, t.ex. säkerställda obligationer. Storleken på dessa finansieringskällor, särskilt den långfristiga finansieringen, kan vara begränsad under perioder med begränsad likviditet. Oroligheter på de globala finansmarknaderna och ekonomin kan negativt påverka Nordeakoncernens likviditet och vissa motparters och kunders benägenhet att göra affärer med Nordeakoncernen, vilket kan få en väsentlig negativ effekt på Nordeakoncernens verksamhet och verksamhetsresultat.

Operationella risker, inklusive risker i samband med investeringsrådgivning, kan påverka Nordeakoncernens verksamhet: För att Nordeakoncernens verksamhet ska fungera måste koncernen kunna genomföra ett stort antal komplexa transaktioner på olika marknader i många valutor. Nordeakoncernens utövar sin verksamhet genom flera olika bolag. Verksamhetsförluster, inklusive monetära skadestånd,

försämrat rykte, kostnader, direkta och indirekta ekonomiska förluster och/eller nedskrivningar kan uppstå av flera olika orsaker. Som en del av bankverksamheten och tillgångsförvaltningen erbjuder Nordeakoncernen sina kunder investeringsrådgivning, tillgång till internt såväl som externt förvaltade fonder samt agerar förvaringsinstitut för fonder som förvaltas av tredje part. För det fall förluster uppstår hos kunder som fått investeringsrådgivning från Nordeakoncernen, alternativt på grund av försummelse eller bedrägliga handlingar av externa fondförvaltare, kan Nordeakoncernen krävas på ersättning. Trots att Nordeakoncernen har implementerat riskkontroller och vidtagit andra åtgärder för att minska exponeringen och/eller förlusterna, finns inga garantier för att åtagandena kommer att vara effektiva i att hantera de olika verksamhetsriskerna som Nordeakoncernen står inför.

----------------------------------	--------------	-----	--------	------------

- (b) **Unlimited Turbo Short:** avkastningen på instrumenten bestäms av värdeutvecklingen på den underliggande tillgången under Instrumentens löptid. Priset på Instrumenten kommer att justeras vid utdelningar från den underliggande tillgången. Priset på Instrumenten kommer att stiga när priset på den underliggande tillgången sjunker och sjunka när priset på den underliggande tillgången stiger. Om priset på den underliggande tillgången överstiger eller är lika med förluststoppnivån kommer Instrumenten att sägas upp och hela det investerade beloppet att gå förlorat. Förluststoppnivån och finansieringsnivån kommer att justeras dagligen. Även valutakursförändringar kommer att påverka investeringens värdeutveckling. För obegränsade turbos är förluststoppnivån alltid lika med finansieringsnivån.
- (c) Genom att investera i Instrumenten bär investeraren risken för att Emittenten inte kommer att kunna göra några betalningar under värdepappren i enlighet med dess villkor. Om Emittenten skulle bli insolvent finns en risk för att investerare förlorar hela eller delar av det investerade beloppet. Instrumenten utgör icke säkerställda och icke efterställda förpliktelser för Emittenten och är i förmånsrättsligt hänseende likställda utan inbördes rangordning och åtminstone likställda med Emittentens alla övriga nuvarande och framtida utestående icke säkerställda och icke efterställda förpliktelser. Instrumenten kan också bli föremål för skuldnedskrivning om Emittenten bli föremål för resolution enligt direktiv 2014/59/EU, så som det implementerats i Finland, och därmed skrivs ner eller ombildas till andra värdepapper (inklusive ordinarie aktier) om resolutionsmyndigheten anser att det är nödvändigt för att återställa Emittentens möjlighet till fortlevnad.
- (d) Instrumenten är fritt omsättningsbara enligt dess villkor. Grundprospektet sammanfattar dock vissa legala restriktioner vad gäller att erbjuda och försäljning av Instrumenten i vissa jurisdiktioner.

Var kommer Värdepappren att handlas?

Ansökan har gjorts för Instrumenten för att godkännas för notering och för upptagande till handel på Nasdaq First North Sweden med effekt från emissionsdagen.

Vilka är de centrala riskerna som är specifika för Värdepappren?

Produktens komplexitet: avkastningsstrukturen för Instrumenten är ibland komplex och kan innehålla matematiska formler eller samband som för en investerare kan vara svåra att förstå och jämföra med andra investeringsalternativ. Förhållandet mellan risk och avkastning kan dessutom vara svårt att utvärdera.

Hävstångsrisiker: på grund av hur Instrumenten är strukturerade kommer värdeutvecklingen hos den underliggande tillgången att påverka priset på Instrumentet och kan leda till större vinst eller större förlust på investerat kapital än om investeringen hade gjorts direkt i den underliggande tillgången. Detta uttrycks normalt så att Instrumentet har en hävstång jämfört med en investering i den underliggande tillgången, det vill säga att en förändring i pris (oavsett om det är en ökning eller en minskning) på den underliggande tillgången medför en större procentuell förändring, av värdet på Instrumenten. Risken förknippad med investering i dessa Instrument blir därmed större än vid en investering i den underliggande tillgången. Dessa Instrument kan förlora allt sitt värde.

Det kan finnas en avsaknad av aktiv marknad för handel med Instrumenten: Instrumenten kommer att vara nya värdepapper som eventuellt inte kommer att spridas i någon större utsträckning och/eller inte vara noterade och, även om de skulle vara noterade, kan komma att sakna aktiv marknad. Avsaknaden av en aktiv marknad kan resultera i begränsad likviditet i Instrumenten, med följderna att investeraren kan behöva inneha Instrument tills de löses in.

Värdeutvecklingen hos de underliggande tillgångarna: enligt villkoren för Instrumenten kan innehavarna vara berättigade till avkastning och betalning av tillämplig slutlikvid beroende på värdeutvecklingen på en eller flera underliggande tillgångar och den aktuella avkastningsstrukturen. Värdeutvecklingen på Instrumenten påverkas av värdet på de underliggande tillgångarna vid specifika tidpunkter under Instrumentets löptid, intensiteten i prisfluktuationer hos de underliggande tillgångarna, prognoser kring framtida volatilitet, marknadsräntor och förväntad utdelning från de underliggande tillgångarna. Under vissa omständigheter kan en investerare förlora hela det investerade beloppet.

Automatisk förtida inlösen – Instrumenten kan komma att lösas in automatiskt innan dess egentliga förfallodag om vissa förutsättningar är uppfyllda, typiskt sett kallat för en ”knock”. Under vissa omständigheter kan detta leda till förlust av hela eller delar av en investerares framtida avkastning eller räntebetalningar från Instrumenten. Eftersom vissa avgifter och kostnader dras av från utgivningspriset kan ett förtida inlösen av Instrumenten även leda till proportionsmässigt högre kostnader.

Valutakursförändringar och växelkurser som underliggande tillgångar: när den underliggande tillgången är en växelkurs eller är angiven i en annan valuta än investerarens egen valuta kan valutakursförändringar påverka avkastningen på Instrumenten. Växelkurser för valutor kan påverkas av komplexa politiska och ekonomiska faktorer, bland annat den relativa inflationstakten, förhållandet mellan betalningar länder emellan, storleken på staters budgetöverskott eller budgetunderskott samt ekonomiska, skattemässiga och/eller handelsrelaterade politiska policys som följs av de relevanta valutornas stater. Valutakursförändringar kan även på ett komplicerat sätt påverka värdet eller nivån på andra underliggande tillgångar. Om sådana valutakursförändringar orsakar förändring i värdet eller nivån på de underliggande tillgångarna kan värdet eller nivån på Instrumenten minska. Om värdet eller nivån på en eller flera underliggande tillgångar är angivna i en annan valuta än den valuta i vilken Instrumenten är emitterade, kan investerare vara exponerade för en ökad risk vad gäller utländska valutakurser. Historiska växelkurser för utländska valutor behöver inte nödvändigtvis utgöra en indikation beträffande framtida växelkurser.

Risker relaterade till störningar på marknaden och extraordinära händelser: underliggande tillgångar kan påverkas av störningar på de marknader där de vanligen handlas eller av extraordinära händelser såsom avnotering, nationalisering, konkurs, likvidation eller utspädning av den berörda underliggande tillgången. Alla Instrument kan bli föremål för händelser såsom lagändringar eller ökade kostnader för riskhantering. Om det sker kan Emittenten ensidigt göra justeringar i tillgångarnas sammansättning och i beräkningen av avkastningen eller värdet på Instrumenten, eller ersätta en underliggande tillgång med en annan, utefter vad Emittenten finner lämpligt.

Index som underliggande tillgångar: en investerare i Instrument som baserar sig på index som underliggande tillgångar kan få lägre betalning vid inlösen av sådana Investeringar än vad investeraren hade fått om han eller hon hade investerat direkt i de tillgångar som utgör indexet. Sponsorn av ett index kan lägga till, ta bort eller ersätta komponenter eller göra metodändringar som kan påverka nivån på sådant index och därmed den avkastning som skall betalas till investerare i Instrumenten. Nordeakoncernen kan också ta del i att skapa, strukturera och underhålla indexportföljer och indexstrategier (och kan även agera indexsponsor i förhållande därtill) (gemensamt ”**Egna Sammansatta Index**”). Det kan därför uppstå intressekonflikter mellan Emittentens (eller dess närståendes) roll som emittent av sådana Instrument och i deras ställning i att upprätta, marknadsföra, främja eller administrera Egna Sammansatta Index.

Terminer som underliggande tillgång: Priset på framtida kontrakt som underliggande tillgång kommer generellt att bestämmas genom att en premie eller rabatt sätts på den relevanta tillgångens pris. Det beror på faktorer som behovet att anpassa priset av en tillgång och ta höjd för relaterade utgifter och andra metoder för att beräkna det nuvarande och framtida priset. Beroende på den underliggande tillgången kan det finnas signifikanta skillnader mellan likviditeten på marknaden vid investeringen och i framtiden. Instrument som är kopplade direkt till den relevanta tillgången kan därför medföra annan avkastning än Instrument kopplade

till terminer. Investeringar i terminer kan medföra andra risker så som bristande likviditet som uppstår på grund av begränsningar av dagliga handelsvolymer.

Risker relaterade till korta exponeringar: en ”lång” exponering innebär att värdeutvecklingen hos Instrumentet kommer att stiga när värdet på den underliggande tillgången stiger. Motsatsvis kommer Instrument med en ”kort” exponering, bland annat Bear Certifikat, att sjunka i värde när värdet på den underliggande tillgången stiger. Ett ökat värde på den underliggande tillgången kan därför resultera i att en investerare förlorar delar av eller hela det investerade kapitalet

Andra risker med Instrumenten kan hänföra sig bland annat till förändringar i räntenivåer, förändringar i växelkurser, huruvida Emittenten har rätt att lösa in Instrumenten i förtid, de finansiella instrumentens komplexitet, fluktuationer i relevanta index, andra underliggande tillgångar, finansmarknaden och huruvida återbetalning är beroende av andra omständigheter än Emittentens kreditvärdighet.
