* Nordea's policy has been to amortise resolution fees linearly over the year. Starting from 1 January 2019, Nordea has recognised resolution fees at the beginning of the year when the legal obligation to pay arises and presents the related expenses as "other expenses". The change mainly reflects the change in the structure of the resolution fees following the re-domiciliation of the parent company of the Nordea Group from Sweden to Finland. The comparative figures for the year ending 31 December 2018 have been restated accordingly to enhance comparability. The figures marked with one asterisk (*) have been restated to reflect the changed recognition and presentation of resolution fees.

** Changes have been made to the presentation of fair value adjustments to the margin component of loans in "hold" portfolios mandatorily held at fair value. The comparative figures marked with two asterisks (**) have been restated accordingly. Please refer to Note 1 to Nordea's fourth quarter and full year results for 2020 for further information.

What are the Key Risks Specific to the Issuer?

The global coronavirus outbreak, which has negatively impacted the economies exposed to the outbreak, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations and adversely affect the Nordea Group's ability to access capital and liquidity: The outbreak of COVID-19 (also commonly referred to as the "coronavirus") has spread rapidly globally in recent months and disrupted various markets and resulted in severe uncertainty about the development of the economies affected by the outbreak both in Europe and elsewhere. The majority of the Nordea Group's operations are concentrated in the Nordic countries that have been, and are expected to continue to be, exposed to the coronavirus outbreak in a similar manner as a number of other European countries. The Nordea Group is affected by the coronavirus outbreak through its direct and indirect impact on the customers, counterparties, employees and other stakeholders of the Nordea Group, both in the Nordic countries and elsewhere, as a result of, among others, public health measures, such as business closings and restrictions on travel and gatherings. Any of the foregoing, and any future adverse consequences related to the coronavirus outbreak not yet known, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations and adversely affect the Nordea Group's ability to access capital and liquidity on financial terms acceptable to the Nordea Group.

Negative economic developments and conditions in the markets in which the Nordea Group operates can adversely affect the Nordea Group's business and results of operations: Nordea Group's performance is significantly influenced by the general economic conditions in the Nordic markets (Denmark, Finland, Norway and Sweden). Development of the economic conditions in other markets where the Nordea Group currently operates can also affect the Nordea Group's performance. Adverse economic developments have affected and may continue to affect the Nordea Group's business in a number of ways, including, among others, the income, wealth, liquidity, business and/or financial condition of the Nordea Group's customers, which, in turn, could further reduce the Nordea Group's credit quality and demand for the Nordea Group's financial products and service. For example, the coronavirus outbreak and the preventive measures implemented in the Nordic countries and elsewhere to contain its spread could have an adverse effect on the Group's customers, which, in turn, could result in decreased credit quality and increased provisioning levels.

The Nordea Group is exposed to market price risk: The Nordea Group's customer-driven trading operations and its treasury operations (where the Nordea Group holds investment and liquidity portfolios for its own account) are the key contributors to market price risk in the Nordea Group. To the extent volatile market conditions persist or recur, the fair value of the Nordea Group's bond, derivative and structured credit portfolios, as well as other classes, could fall more than estimated, and therefore cause the Nordea Group to record write-downs. In addition, because the Nordea Group's trading and investment income depends to a great extent on the performance of financial markets, volatile market conditions could result in a significant decline in the Nordea Group's trading and investment income, or result in a trading loss, which, in turn, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

The Nordea Group is subject to extensive regulation that is subject to change: Companies active in the financial services industry, including the Nordea Group, operate under an extensive regulatory regime. The Nordea Group is subject to laws and regulations, administrative actions and policies as well as related oversight from the local regulators in each of the jurisdictions in which it has operations. The Nordea Group is also under the direct supervision and subject to the regulations of the European Central Bank, as a result of the size of its assets. Regulatory developments or any other requirements, restrictions, limitations on the operations of financial institutions and costs involved, or unexpected requirements under, or uncertainty with respect to, the regulatory framework to be applied to the Nordea Group, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

Liquidity risk is inherent in the Nordea Group's operations. Liquidity risk is the risk that the Nordea Group will be unable to meet its obligations as they fall due or meet its liquidity commitments only at an increased cost. A substantial portion of the Nordea Group's liquidity and funding requirements is met through reliance on customer deposits, as well as ongoing access to wholesale funding markets, including issuance of long-term debt market instruments, such as covered bonds. The volume of these funding sources, in particular long-term funding, may be constrained during periods of liquidity stress. Turbulence in the global financial markets and economy may adversely affect the Nordea Group's liquidity and the willingness of certain counterparties and customers to do business with the Nordea Group, which may result in a material adverse effect on the Nordea Group's business and results of operations.

Operational risks, including risks in connection with investment advice, may affect the Nordea Group's business. The Nordea Group's business operations are dependent on the ability to process a large number of complex transactions across different markets in many currencies. The Nordea Group's operations are carried out through a number of entities. Operational losses, including monetary damages, reputational damage, costs, and direct and indirect financial losses and/or write-downs, may result from many different sources. As a part of its banking and asset management activities, the Nordea Group also provides its customers with investment advice, access to internally as well as externally managed funds and serves as custodian of third party funds. In the event of losses incurred by its customers due to investment advice from the Nordea Group, or the misconduct or fraudulent actions of external fund managers, the Nordea Group's customers may seek compensation from the Nordea Group. Although the Nordea Group has

Confidential

implemented risk controls and taken other actions to mitigate exposures and/or losses, there can be no assurances that such procedures will be effective in controlling each of the operational risks faced by the Nordea Group.

(a) ***Mini Future Long:*** the return of the Instruments depends on the performance of the underlying asset during the lifetime of the Instruments.The price of the Instruments will be adjusted for dividends in the underlying asset. The price of the Instruments will increase when the price of the underlying asset increases, and decrease when the price of the underlying asset decreases. If the price of the underlying asset is at or below the stop-loss level, the Instruments will terminate and some or all of the amount invested will be lost. The stop-loss level and the financing level will be adjusted on a daily basis. Currency fluctuations will also affect the performance of the Instruments.

(b) By investing in the Instruments, an investor will be assuming the risk that the Issuer will not be able to make payments on the securities in accordance with their terms. On an insolvency of the Issuer, there is a risk that the investors may lose some or all of their investment. The Instruments constitute unsecured and unsubordinated obligations of the Issuer and rank *pari passu* without any preference among themselves and at least *pari passu* with all other outstanding unsecured and unsubordinated obligations of the Issuer, present and future. The Instruments could also be subject to the bail-in power in the event of a resolution of the Issuer under directive 2014/59/EU, as implemented in Finland, and may be written down or converted into other securities (including ordinary shares) if the resolution authority determines that this is necessary in order to restore the viability of the Issuer.

(c) The Instruments are freely transferable by their terms, although the Base Prospectus summarises certain legal restriction on the offers and sales of Instruments in certain jurisdictions.

Where will the Securities be Traded?

Application has been made for the Instruments to be admitted to listing on Nasdaq First North Sweden and to trading on Nasdaq First North Sweden effective as of the Issue Date.

What are the Key Risks that are Specific to the Securities?

Complexity of the product – The yield structure for the Instruments is sometimes complex and may contain mathematical formulae or relationships which, for an investor, may be difficult to understand and compare with other investment alternatives. It should be noted that the relationship between yield and risk may be difficult to assess.

Leverage Risks – due to the structure of the Instruments, the performance of the underlying asset will affect the price of the Instrument and may lead to larger profits or losses on invested capital than if the investment had been made directly in the underlying asset. This is normally expressed by saying that the Instruments have a leverage effect compared with an investment in the underlying asset, i.e. a change in price (both upwards and downwards) of the underlying asset results, in percentage terms, in a greater change in the value of the Instruments. Consequently, the risk associated with an investment in such Instruments is greater than with an investment in the underlying asset. Such Instruments may become worthless.

There may be no active trading market for the Instruments - The Instruments will be new securities which may not be widely distributed and/or may be unlisted and, even if listed, may not have an active trading market. The lack of an active trading market may result in reduced liquidity for the Instruments, with the result that the investor may have to hold such Instruments until they are redeemed.

Performance of the underlying assets – under the terms of the Instruments, the holders are entitled to yield and payment of any applicable settlement amount, depending on the performance of one or more underlying assets and the applicable yield structure. The performance of the Instruments is affected by the value of the underlying assets at specific points in time during the term of the Instruments, the intensity of fluctuations in the prices of the underlying assets, expectations regarding future volatility, market interest rates, and expected dividends on the underlying assets. In some circumstances the investor may lose all of their invested amount.

Automatic early redemption – The Instruments may be redeemed automatically if certain conditions are met, typically referred to as a "knock". In some circumstances, this may result in a loss of part, or all, an investor's future coupon or interest payments in respect of the Instruments. Because certain costs and expenses are deducted from the issue price, an early redemption of the Instruments may also result in proportionately higher expenses.

Risks relating to market disruption and extraordinary events - underlying assets may be affected by disruption to their normal trading markets, or extraordinary events such as delisting, nationalisation, bankruptcy, liquidation or dilutive events affecting the relevant underlying asset. For all Instruments, events such as changes in the law or increased costs for risk management may arise. If so, the Issuer may, at its sole discretion, make any adjustments in the composition of the assets and the calculation of the yield or value of Instruments or replace one underlying asset with another underlying asset, as the Issuer deems necessary.

Shares as underlying assets – Share-linked instruments are not sponsored or promoted by the issuer of the shares. Accordingly, the issuer of the shares has no obligation to take into account the interests of investors in the Instruments and thus the actions of such share issuer might negatively affect the market value of the Instruments. An investor in the Instruments is not entitled to receive any payments or other dividends to which a direct owner of the underlying shares would otherwise be entitled.

Other risks associated with Instruments may relate, inter alia, to changes in interest rates, changes in exchange rates, whether the Issuer is entitled to redeem the Instruments prematurely, the complexity of the financial instruments, fluctuations in relevant indices, other underlying assets or the financial market, and whether repayment is dependent on circumstances other than the credit-worthiness of the Issuer.

** Nordeas policy har varit att amortera resolutionsavgifter linjärt över verksamhetsåret. Med start från den 1 januari 2019 har Nordea erkänt resolutionsavgifter i början av året när den legala betalningsskyldigheten uppstår och presenterar därtill relaterade kostnader som "övriga kostnader". Förändringen speglar främst ändringen av strukturen för resolutionsavgifterna som följer av att moderbolaget inom Nordeakoncernen har flyttats från Sverige till Finland. Jämförelsetalen för verksamhetsåret som avslutades den 31 december 2018 har justerats för att förstärka jämförbarheten. De siffror som är markerade med en asterisk (*) har justerats för att spegla den förändrade presentationen av resolutionsavgifter.*

***Presentationen av verkligt värde-justeringar av marginalkomponenten för lånefordringar i portföljer där avsikten är att behålla instrumenten till förfall, och som obligatoriskt värderas till verkligt värde, har ändrats. De jämförelsetal som är markerade med två asterisker (**) har justerats i enlighet därmed. Vänligen se not 1 i Nordeas delårsrapport för det fjärde kvartalet 2020 för ytterligare information.*

Vad är de centrala riskerna specifika för Emittenten?

Det globala coronavirusutbrottet har påverkat de ekonomier som har utsatts för det negativt och skulle kunna ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och rörelseresultat samt inverka negativt på Nordeakoncernens tillgång till likviditet och till kapitalmarknaden: Utbrottet av COVID-19 (vilket ofta refereras till som "coronaviruset") har haft en hastig global spridning under de senaste månaderna och orsakat störningar på flera marknader liksom kraftig osäkerhet gällande utvecklingen i de ekonomier som har drabbats av utbrottet, både inom Europa och på andra platser. Merparten av Nordeakoncernens verksamhet är lokaliserad i de nordiska länderna, vilka har utsatts för och förväntas fortsätta utsättas för coronavirusutbrottet på ett liknande sätt som ett flertal andra

Confidential

europeiska länder. Som ett resultat bland annat av åtgärder för att främja folkhälsan, såsom att verksamheter stängs ned och att restriktioner avseende resande och folksamlingar införs, påverkas Nordeakoncernen av coronavirusutbrottet genom dess direkta och indirekta inverkan på kunder, motparter, anställda och andra intressenter, såväl i de nordiska länderna som på andra platser. Det ovan nämnda, och eventuella framtida negativa följder kopplade till coronavirusutbrottet som ännu inte är kända skulle kunna ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och rörelseresultat samt inverka negativt på Nordeakoncernens tillgång till likviditet och till kapitalmarknaden på villkor som är godtagbara för Nordeakoncernen.

Negativ ekonomisk utveckling och förhållanden på marknaden på vilken Nordeakoncernen verkar kan ha en negativ inverkan på Nordeakoncernens verksamhet och rörelseresultat: Nordeakoncernens resultat påverkas i hög grad av generella ekonomiska förhållanden på de nordiska marknaderna (Danmark, Finland, Norge och Sverige). Utvecklingen vad gäller de ekonomiska förhållandena på andra marknader där Nordeakoncernen verkar kan också påverka Nordeakoncernens resultat. Negativ ekonomisk utveckling har påverkat, och kan komma att fortsätta påverka Nordeakoncernens verksamhet på flera sätt, bland annat Nordeakoncernens kunders intäkter, tillgångar, likviditet, verksamhet och/eller finansiell status, vilket i sin tur kan försämra Nordeakoncernens kreditvärdighet samt efterfrågan på Nordeakoncernens finansiella produkter och tjänster. Exempelvis skulle coronavirusutbrottet och de preventiva åtgärder som har implementerats i de nordiska länderna och på andra platser i syfte att begränsa dess spridning kunna ha en negativ inverkan på Nordeakoncernens kunder vilket i sin tur kan leda till en försämrad kreditvärdighet och ökade avsättningar.

Nordeakoncernen är utsatt för marknadsprisrisk: Nordeakoncernens kunddrivna värdepappershandel och dess treasury-funktion (där Nordeakoncernen håller investerings- och likviditetsportföljer för egen räkning) är de största bidragande faktorerna till marknadsprisrisk i Nordeakoncernen. Till den del volatila marknadsförhållanden håller i sig eller återkommer, kan värdet på Nordeakoncernens obligations-, derivat- och strukturerade kreditportföljer, likväl som andra typer av instrument, minska mer än beräknat, och därför medföra nedskrivningar. Utöver det kan volatila marknadsförhållanden, på grund av att Nordeakoncernens handels- och investeringsintäkter till stor del är beroende av förhållandena på de finansiella marknaderna, resultera i en märkbar nedgång i Nordeakoncernens handels- och investeringsintäkter, eller resultera i en handelsförlust, vilket i sin tur kan ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och verksamhetsresultat.

Nordeakoncernen är föremål för omfattande regelverk som är föremål för förändringar: Alla bolag verksamma inom den finansiella sektorn, inklusive Nordeakoncernen, bedriver sin verksamhet under omfattande regulatoriska regelverk. Nordeakoncernen är föremål för tillsyn och måste följa ett stort antal lagar och regler, administrativa påbud och policys i de olika jurisdiktioner som koncernen verkar inom. På grund av storleken på Nordeakoncernens tillgångar står den också under direkt tillsyn av Europeiska Centralbanken och är föremål för dess regelverk. Regulatoriska förändringar och andra krav, restriktioner och begränsningar vad gäller finansiella instituts verksamhet och kostnader hänförliga därtill, eller oväntade krav under, eller osäkerhet kring, det regulatoriska ramverk som Nordeakoncernen träffas av, kan ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och verksamhetsresultat.

Det finns en inneboende likviditetsrisk i Nordeakoncernens verksamhet: Likviditetsrisk är risken för att Nordeakoncernen inte ska kunna betala sina skulder när de förfaller eller nå upp till likviditetsåtaganden endast till en högre kostnad. En stor del av Nordeakoncernens likviditets- och finansieringskrav uppfylls genom insättningar från kunder, samt kontinuerlig tillgång till kapitalmarknaderna, bland annat utfärdandet av långfristiga skuldebrev, t.ex. säkerställda obligationer. Storleken på dessa finansieringskällor, särskilt den långfristiga finansieringen, kan vara begränsad under perioder med begränsad likviditet. Oroligheter på de globala finansmarknaderna och ekonomin kan negativt påverka Nordeakoncernens likviditet och vissa motparters och kunders benägenhet att göra affärer med Nordeakoncernen, vilket kan få en väsentlig negativ effekt på Nordeakoncernens verksamhet och verksamhetsresultat.

Confidential

***Operationella risker, inklusive risker i samband med investeringsrådgivning, kan påverka Nordeakoncernens verksamhet*:** För att Nordeakoncernens verksamhet ska fungera måste koncernen kunna genomföra ett stort antal komplexa transaktioner på olika marknader i många valutor. Nordeakoncernens utövar sin verksamhet genom flera olika bolag. Verksamhetsförluster, inklusive monetära skadestånd, försämrat rykte, kostnader, direkta och indirekta ekonomiska förluster och/eller nedskrivningar kan uppstå av flera olika orsaker. Som en del av bankverksamheten och tillgångsförvaltningen erbjuder Nordeakoncernen sina kunder investeringsrådgivning, tillgång till internt såväl som externt förvaltade fonder samt agerar förvaringsinstitut för fonder som förvaltas av tredje part. För det fall förluster uppstår hos kunder som fått investeringsrådgivning från Nordeakoncernen, alternativt på grund av försummelse eller bedrägliga handlingar av externa fondförvaltare, kan Nordeakoncernen krävas på ersättning. Trots att Nordeakoncernen har implementerat riskkontroller och vidtagit andra åtgärder för att minska exponeringen och/eller förlusterna, finns inga garantier för att åtagandena kommer att vara effektiva i att hantera de olika verksamhetsrisker som Nordeakoncernen står inför.

(b) ***Mini Future Long:*** avkastningen på Instrumenten bestäms av värdeutvecklingen på den underliggande tillgången under Instrumentens löptid.Priset på Instrumenten kommer att justeras vid utdelningar från den underliggande tillgången. Priset för Instrumentet kommer att stiga när priset på den underliggande tillgången stiger och sjunka när priset på den underliggande tillgången sjunker. Om priset på den underliggande tillgången är under eller lika med förluststoppnivån kommer Instrumentet att sägas upp och delar av eller hela det investerade beloppet att gå förlorat. Förluststoppnivån och finansieringsnivån kommer att justeras dagligen. Även valutakursförändringar kommer att påverka Instrumentens värdeutveckling.

(c) Genom att investera i Instrumenten bär investeraren risken för att Emittenten inte kommer att kunna göra några betalningar under värdepappren i enlighet med dess villkor. Om Emittenten skulle bli insolvent finns en risk för att investerare förlorar hela eller delar av det investerade beloppet. Instrumenten utgör icke säkerställda och icke efterställda förpliktelser för Emittenten och är i förmånsrättsligt hänseende likställda utan inbördes rangordning och åtminstone likställda med Emittentens alla övriga nuvarande och framtida utestående icke säkerställda och icke efterställda förpliktelser. Instrumenten kan också bli föremål för skuldnedskrivning om Emittenten bli föremål för resolution enligt direktiv 2014/59/EU, så som det implementerats i Finland, och därmed skrivas ner eller ombildas till andra värdepapper (inklusive ordinarie aktier) om resolutionsmyndigheten anser att det är nödvändigt för att återställa Emittentens möjlighet till fortlevnad.

(d) Instrumenten är fritt omsättningsbara enligt dess villkor. Grundprospektet sammanfattar dock vissa legala restriktioner vad gäller att erbjudande och försäljning av Instrumenten i vissa jurisdiktioner.

Var kommer Värdepappren att handlas?

Ansökan har gjorts för Instrumenten för att godkännas för notering och för upptagande till handel på Nasdaq First North Sweden med effekt från emissionsdagen.

Vilka är de centrala riskerna som är specifika för Värdepappren?

Produktens komplexitet: avkastningsstrukturen för Instrumenten är ibland komplex och kan innehålla matematiska formler eller samband som för en investerare kan vara svåra att förstå och jämföra med andra investeringsalternativ. Förhållandet mellan risk och avkastning kan dessutom vara svårt att utvärdera.

Hävstångsrisker: på grund av hur Instrumenten är strukturerade kommer värdeutvecklingen hos den underliggande tillgången att påverka priset på Instrumentet och kan leda till större vinst eller större förlust på investerat kapital än om investeringen hade gjorts direkt i den underliggande tillgången. Detta uttrycks normalt så att Instrumentet har en hävstång jämfört med en investering i den underliggande tillgången, det vill säga att en förändring i pris (oavsett om det är en ökning eller en minskning) på den underliggande tillgången medför en större procentuell förändring, av värdet på Instrumenten. Risken förknippad med investering i dessa Instrument blir därmed större än vid en investering i den underliggande tillgången. Dessa Instrument kan förlora allt sitt värde.

Det kan finnas en avsaknad av aktiv marknad för handel med Instrumenten: Instrumenten kommer att vara nya värdepapper som eventuellt inte kommer att spridas i någon större utsträckning och/eller inte vara noterade och, även om de skulle vara noterade, kan komma att sakna aktiv marknad. Avsaknaden av en aktiv marknad kan resultera i begränsad likviditet i Instrumenten, med följden att investeraren kan behöva inneha Instrument tills de löses in.

Värdeutvecklingen hos de underliggande tillgångarna: enligt villkoren för Instrumenten kan innehavarna vara berättigade till avkastning och betalning av tillämplig slutlikvid beroende på värdeutvecklingen på en eller flera underliggande tillgångar och den aktuella avkastningsstrukturen. Värdeutvecklingen på Instrumenten påverkas av värdet på de underliggande tillgångarna vid specifika tidpunkter under Instrumentets löptid, intensiteten i prisfluktuationer hos de underliggande tillgångarna, prognoser kring

framtida volatilitet, marknadsräntor och förväntad utdelning från de underliggande tillgångarna. Under vissa omständigheter kan en investerare förlora hela det investerade beloppet.

Automatisk förtida inlösen – Instrumenten kan komma att lösas in automatiskt innan dess egentliga förfallodag om vissa förutsättningar är uppfyllda, typiskt sett kallat för en ”knock”. Under vissa omständigheter kan detta leda till förlust av hela eller delar av en investerares framtida avkastning eller ränteutbetalningar från Instrumenten. Eftersom vissa avgifter och kostnader dras av från utgivningspriset kan ett förtida inlösen av Instrumenten även leda till proportionsmässigt högre kostnader.

Risker relaterade till störningar på marknaden och extraordinära händelser: underliggande tillgångar kan påverkas av störningar på de marknader där de vanligen handlas eller av extraordinära händelser såsom avnotering, nationalisering, konkurs, likvidation eller utspädning av den berörda underliggande tillgången. Alla Instrument kan bli föremål för händelser såsom lagändringar eller ökade kostnader för riskhantering. Om det sker kan Emittenten ensidigt göra justeringar i tillgångarnas sammansättning och i beräkningen av avkastningen eller värdet på Instrumenten, eller ersätta en underliggande tillgång med en annan, utefter vad Emittenten finner lämpligt.

Aktier som underliggande tillgångar: aktielänkade Instrument är inte stödda eller främjade av emittenten av aktierna. Emittenten av aktierna har därför inte någon skyldighet att beakta intresset för dem som investerat i Instrumenten varför åtgärder tagna av en sådan emittent av aktier skulle kunna inverka negativt på Instrumentens marknadsvärde. Den som investerat i Instrumenten har inte rätt att få några utbetalningar eller andra utdelningar till vilka en direkt ägare av de underliggande aktierna annars skulle ha rätt.

Andra risker med Instrumenten kan hänföra sig bland annat till förändringar i räntenivåer, förändringar i växelkurser, huruvida Emittenten har rätt att lösa in Instrumenten i förtid, de finansiella instrumentens komplexitet, fluktuationer i relevanta index, andra underliggande tillgångar, finansmarknaden och huruvida återbetalning är beroende av andra omständigheter än Emittentens kreditvärdighet.
