

IMPORTANT NOTICE

In accessing the attached final terms (the "Final Terms") you agree to be bound by the following terms and conditions.

EU MiFID II product governance – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, "MiFID II"); (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate – investment advice, portfolio management and non-advised sales, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("EUWA"); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the Financial Services and Markets Act 2000 (as amended, the "FSMA") to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

The information contained in the Final Terms may be addressed to and/or targeted at persons who are residents of particular countries only as specified in the Final Terms and/or in the Base Prospectus (as defined in the Final Terms) and is not intended for use and should not be relied upon by any person outside those countries and/or to whom the offer contained in the Final Terms is not addressed. **Prior to relying on the information contained in the Final Terms, you must ascertain from the Final Terms and/or the Base Prospectus whether or not you are an intended addressee of the information contained therein.**

Neither the Final Terms nor the Base Prospectus constitutes an offer to sell or the solicitation of an offer to buy securities in the United States or in any other jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration, exemption from registration or qualification under the securities law of any such jurisdiction.

The securities described in the Final Terms and the Base Prospectus have not been, and will not be, registered under the U.S. Securities Act of 1933, as amended (the "Securities Act") and may not be offered or sold directly or indirectly within the United States or to, or for the account or benefit of, U.S. persons or to persons within the United States of America (as such terms are defined in Regulation S under the Securities Act ("Regulation S")). The securities described in the Final Terms will only be offered in offshore transactions to non-U.S. persons in reliance upon Regulation S.

What are the Key Risks Specific to the Issuer?

The global coronavirus outbreak, which has negatively impacted the economies exposed to the outbreak, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations and adversely affect the Nordea Group's ability to access capital and liquidity: The outbreak of COVID 19 (also commonly referred to as the "coronavirus") spread globally in the first half of 2020 and disrupted various markets and has resulted in significant uncertainty about the development of the economies affected by the outbreak both in Europe and elsewhere. The majority of the Nordea Group's operations are concentrated in the Nordic countries that have been, and are expected to continue to be, exposed to the coronavirus outbreak in a similar manner as a number of other European countries. The Nordea Group is affected by the coronavirus outbreak through its direct and indirect impact on the customers, counterparties, employees and other stakeholders of the Nordea Group, both in the Nordic countries and elsewhere, as a result of, among others, public health measures, such as business closings and restrictions on travel and gatherings. There can also be no assurances that the adverse impact of the coronavirus outbreak will not lead to a tightening of liquidity conditions or funding uncertainty, or adversely affect the credit ratings assigned to Nordea or its subsidiaries. New regulatory requirements may also be introduced on the future to address any liquidity concerns or other adverse effects the coronavirus outbreak may have on the financial sector, and financial institutions, such as the Nordea Group, could also become subject to related heightened supervisory demands. Any future adverse consequences related to the

coronavirus outbreak not yet known, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations and adversely affect the Nordea Group's ability to, among others, meet its financial targets or access capital and liquidity on financial terms acceptable to the Nordea Group.

Negative economic developments and conditions in the markets in which the Nordea Group operates can adversely affect the Nordea Group's business and results of operations: The Nordea Group's performance is significantly influenced by the general economic conditions in the Nordic markets (Denmark, Finland, Norway and Sweden). Development of the economic conditions in other markets where the Nordea Group currently operates can also affect the Nordea Group's performance. Adverse economic developments have affected and may continue to affect the Nordea Group's business in a number of ways, including, among others, the income, wealth, liquidity, business and/or financial condition of the Nordea Group's customers, which, in turn, could further reduce the Nordea Group's credit quality and demand for the Nordea Group's financial products and services. For example, the coronavirus outbreak and the preventive measures implemented in the Nordic countries and elsewhere to contain its spread could have an adverse effect on borrowers, which, in turn, could result in decreased credit quality and increased provisioning levels.

The Nordea Group is exposed to market price risk: The Nordea Group's customer-driven trading operations and its treasury operations (where the Nordea Group holds investment and liquidity portfolios for its own account) are the key contributors to market price risk in the Nordea Group. To the extent volatile market conditions persist or recur, the fair value of the Nordea Group's bond, derivative and structured credit portfolios, as well as other classes, could fall more than estimated, and therefore cause the Nordea Group to record write-downs. In addition, because the Nordea Group's trading and investment income depends to a great extent on the performance of financial markets, volatile market conditions could result in a significant decline in the Nordea Group's trading and investment income, or result in a trading loss, which, in turn, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

The Nordea Group is subject to extensive regulation that is subject to change: Companies active in the financial services industry, including the Nordea Group, operate under an extensive regulatory regime. The Nordea Group is subject to laws and regulations, administrative actions and policies as well as related oversight from the local regulators in each of the jurisdictions in which it has operations. The Nordea Group is also under the direct supervision and subject to the regulations of the European Central Bank, as a result of the size of its assets. Regulatory developments or any other requirements, restrictions, limitations on the operations of financial institutions and costs involved, or unexpected requirements under, or uncertainty with respect to, the regulatory framework to be applied to the Nordea Group, could have a material adverse effect on the Nordea Group's business, financial condition and results of operations.

Liquidity risk is inherent in the Nordea Group's operations. Liquidity risk is the risk that the Nordea Group will be unable to meet its obligations as they fall due or meet its liquidity commitments only at an increased cost. A substantial portion of the Nordea Group's liquidity and funding requirements is met through reliance on customer deposits, as well as ongoing access to wholesale funding markets, including issuance of long-term debt market instruments, such as covered bonds. The volume of these funding sources, in particular long-term funding, may be constrained during periods of liquidity stress. Turbulence in the global financial markets and economy may adversely affect the Nordea Group's liquidity and the willingness of certain counterparties and customers to do business with the Nordea Group, which may result in a material adverse effect on the Nordea Group's business and results of operations.

Application has been made for the Instruments to be admitted to listing on Nasdaq First North Sweden and to trading on Nasdaq First North Sweden effective as of the Issue Date.

What are the Key Risks that are Specific to the Securities?

Complexity of the product – The yield structure for the Instruments is sometimes complex and may contain mathematical formulae or relationships which, for an investor, may be difficult to understand and compare with other investment alternatives. It should be noted that the relationship between yield and risk may be difficult to assess.

Leverage Risks – due to the structure of the Instruments, the performance of the underlying asset will affect the price of the Instrument and may lead to larger profits or losses on invested capital than if the investment had been made directly in the underlying asset. This is normally expressed by saying that the Instruments have a leverage effect compared with an investment in the underlying asset, i.e. a change in price (both upwards and downwards) of the underlying asset results, in percentage terms, in a greater change in the value of the Instruments. Consequently, the risk associated with an investment in such Instruments is greater than with an investment in the underlying asset. Such Instruments may become worthless.

There may be no active trading market for the Instruments - The Instruments will be new securities which may not be widely distributed and/or may be unlisted and, even if listed, may not have an active trading market. The lack of an active trading market may result in reduced liquidity for the Instruments, with the result that the investor may have to hold such Instruments until they are redeemed.

Performance of the underlying assets – under the terms of the Instruments, the holders are entitled to yield

and payment of any applicable settlement amount, depending on the performance of one or more underlying assets and the applicable yield structure. The performance of the Instruments is affected by the value of the underlying assets at specific points in time during the term of the Instruments, the intensity of fluctuations in the prices of the underlying assets, expectations regarding future volatility, market interest rates, and expected dividends on the underlying assets. In some circumstances the investor may lose all of their invested amount.

Automatic early redemption – The Instruments may be redeemed automatically if certain conditions are met, typically referred to as a "knock". In some circumstances, this may result in a loss of part, or all, an investor's future coupon or interest payments in respect of the Instruments. Because certain costs and expenses are deducted from the issue price, an early redemption of the Instruments may also result in proportionately higher expenses.

Risks relating to market disruption and extraordinary events - underlying assets may be affected by disruption to their normal trading markets, or extraordinary events such as delisting, nationalisation, bankruptcy, liquidation or dilutive events affecting the relevant underlying asset. For all Instruments, events such as changes in the law or increased costs for risk management may arise. If so, the Issuer may, at its sole discretion, make any adjustments in the composition of the assets and the calculation of the yield or value of Instruments or replace one underlying asset with another underlying asset, as the Issuer deems necessary.

Risks relating to the underlying asset – the return and value of the Instruments will depend on the performance of the Underlying Asset. As the performance of the Instruments are linked to the performance of the Underlying Asset, the investor may risk losing the entire invested amount. The value of an Instrument may, in addition to changes in the price of the Underlying Asset, be impacted by the intensity of the price fluctuations of the Underlying Asset (commonly referred to as volatility), expectations regarding future volatility, market interest rates and expected dividends or other distributions on the Underlying Asset. Investors should be aware that the market price of the Instruments may be volatile due to the performance of the Underlying Asset, and the amount payable under the Instrument to the investor may be less than the original amount paid for an Instrument, or even zero. Changes in the price of the Underlying Asset may not be directly correlated with the price of the Instrument and a small movement in the value of the Underlying Asset may result in a significant change in the value of the Instrument. The Issuer may not be able to control the price or composition of the Underlying Assets. An investor in an Instrument does not have rights that a direct owner of the Underlying Asset would be entitled to, for example receiving dividends or other payments associated with the holding of the Underlying Asset. If the Underlying Asset(s) is denominated in a currency that is different from the currency of the Instruments, investors in the Instruments are also subject to foreign exchange risk and may suffer significant losses even if the value of the Underlying Asset in its currency of denomination is unchanged or has performed favourably for the investor. Previous foreign exchange rates are not necessarily indicative of future foreign exchange rates.

Risks relating to short exposures – a "long" exposure means that the performance of the Instrument will appreciate when the value of the underlying asset increases. Conversely Instruments that have a "short" exposure, including Bear Certificates, will decline in value where the value of the underlying asset increases. A rise in the value of the underlying asset could therefore result in the investor losing some or all of the invested capital.

Other risks associated with Instruments may relate, inter alia, to changes in interest rates, changes in exchange rates, whether the Issuer is entitled to redeem the Instruments prematurely, the complexity of the financial instruments, fluctuations in relevant indices, other underlying assets or the financial market, and whether repayment is dependent on circumstances other than the credit-worthiness of the Issuer.

Vad är de centrala riskerna specifika för Emittenten?

Det globala coronavirusutbrottet har påverkat de ekonomier som har utsatts för det negativt och skulle kunna ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och rörelseresultat samt inverka negativt på Nordeakoncernens tillgång till likviditet och till kapitalmarknaden: Utbrottet av COVID-19 (vilket ofta refereras till som ”coronaviruset”) spred sig globalt under första halvan av 2020 och orsakade störningar på flera marknader liksom stor osäkerhet gällande utvecklingen i de ekonomier som har drabbats av utbrottet, både inom Europa och på andra platser. Merparten av Nordeakoncernens verksamhet är lokaliserad i de nordiska länderna, vilka har utsatts för och förväntas fortsätta utsättas för coronavirusutbrottet på ett liknande sätt som ett flertal andra europeiska länder. Som ett resultat bland annat av åtgärder för att främja folkhälsan, såsom att verksamheter stängs ned och att restriktioner avseende resande och folksamlingar införs, påverkas Nordeakoncernen av

coronavirusutbrottet genom dess direkta och indirekta inverkan på kunder, motparter, anställda och andra intressenter, såväl i de nordiska länderna som på andra platser. Det är inte heller säkert att coronavirusutbrottets negativa inverkan inte leder till en åtstramning av likviditetsförhållanden eller osäkerhet kring finansiering, eller att det har en negativ inverkan på Nordeas eller dess dotterbolags kreditbetyg. I framtiden kan även nya regulatoriska krav komma att införas för att adressera eventuella likviditetsproblem eller liknande negativa följder som coronavirusutbrottet kan komma att ha på den finansiella sektorn. Vidare kan finansiella institutioner, såsom Nordeakoncernen, komma att bli föremål för därtill relaterade ökade tillsyns krav. Eventuella framtida negativa följder kopplade till coronavirusutbrottet som ännu inte är kända skulle kunna ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och rörelseresultat samt inverka negativt bland annat på Nordeakoncernens tillgång till likviditet och till kapitalmarknaden på villkor som är godtagbara för Nordeakoncernen.

Negativ ekonomisk utveckling och förhållanden på marknaden på vilken Nordeakoncernen verkar kan ha en negativ inverkan på Nordeakoncernens verksamhet och rörelseresultat: Nordeakoncernens resultat påverkas i hög grad av generella ekonomiska förhållanden på de nordiska marknaderna (Danmark, Finland, Norge och Sverige). Utvecklingen vad gäller de ekonomiska förhållandena på andra marknader där Nordeakoncernen verkar kan också påverka Nordeakoncernens resultat. Negativ ekonomisk utveckling har påverkat, och kan komma att fortsätta påverka Nordeakoncernens verksamhet på flera sätt, bland annat Nordeakoncernens kunders intäkter, tillgångar, likviditet, verksamhet och/eller finansiell status, vilket i sin tur kan försämra Nordeakoncernens kreditvärdighet samt efterfrågan på Nordeakoncernens finansiella produkter och tjänster. Exempelvis skulle coronavirusutbrottet och de preventiva åtgärder som har implementerats i de nordiska länderna och på andra platser i syfte att begränsa dess spridning kunna ha en negativ inverkan på låntagare vilket i sin tur kan leda till en försämrad kreditvärdighet och ökade avsättningar.

Nordeakoncernen är utsatt för marknadsprisrisk: Nordeakoncernens kunddrivna värdepappershandel och dess treasury-funktion (där Nordeakoncernen håller investerings- och likviditetsportföljer för egen räkning) är de största bidragande faktorerna till marknadsprisrisk i Nordeakoncernen. Till den del volatila marknadsförhållanden håller i sig eller återkommer, kan värdet på Nordeakoncernens obligations-, derivat- och strukturerade kreditportföljer, likväl som andra typer av instrument, minska mer än beräknat, och därför medföra nedskrivningar. Utöver det kan volatila marknadsförhållanden, på grund av att Nordeakoncernens handels- och investeringsintäkter till stor del är beroende av förhållandena på de finansiella marknaderna, resultera i en märkbar nedgång i Nordeakoncernens handels- och investeringsintäkter, eller resultera i en handelsförlust, vilket i sin tur kan ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och verksamhetsresultat.

Nordeakoncernen är föremål för omfattande regelverk som är föremål för förändringar: Alla bolag verksamma inom den finansiella sektorn, inklusive Nordeakoncernen, bedriver sin verksamhet under omfattande regulatoriska regelverk. Nordeakoncernen är föremål för tillsyn och måste följa ett stort antal lagar och regler, administrativa påbud och policys i de olika jurisdiktioner som koncernen verkar inom. På grund av storleken på Nordeakoncernens tillgångar står den också under direkt tillsyn av Europeiska Centralbanken och är föremål för dess regelverk. Regulatoriska förändringar och andra krav, restriktioner och begränsningar vad gäller finansiella instituts verksamhet och kostnader hänförliga därtill, eller oväntade krav under, eller osäkerhet kring, det regulatoriska ramverk som Nordeakoncernen träffas av, kan ha en väsentlig negativ inverkan på Nordeakoncernens verksamhet, finansiella ställning och verksamhetsresultat.

Det finns en inneboende likviditetsrisk i Nordeakoncernens verksamhet: Likviditetsrisk är risken för att Nordeakoncernen inte ska kunna betala sina skulder när de förfaller eller nå upp till likviditetsåtaganden endast till en högre kostnad. En stor del av Nordeakoncernens likviditets- och finansieringskrav uppfylls genom insättningar från kunder, samt kontinuerlig tillgång till kapitalmarknaderna, bland annat utfärdandet av långfristiga skuldebrev, t.ex. säkerställda obligationer. Storleken på dessa finansieringskällor, särskilt den långfristiga finansieringen, kan vara begränsad under perioder med begränsad likviditet. Oroligheter på de globala finansmarknaderna och ekonomin kan negativt påverka Nordeakoncernens likviditet och vissa

motparters och kunders benägenhet att göra affärer med Nordeakoncernen, vilket kan få en väsentlig negativ effekt på Nordeakoncernens verksamhet och verksamhetsresultat.

- (b) **Mini Future Short:** avkastningen på Instrumenten bestäms av värdeutvecklingen på den underliggande tillgången under Instrumentens löptid. Priset på Instrumenten kommer att justeras vid utdelningar från den underliggande tillgången. Priset på Instrumenten kommer att stiga när priset på den underliggande tillgången sjunker och sjunka när priset på den underliggande tillgången stiger. Om priset på den underliggande tillgången är under eller lika med förluststoppnivån kommer Instrumenten att sägas upp och hela eller delar av det investerade beloppet att gå förlorat. Förluststoppnivån och finansieringsnivån kommer att justeras dagligen. Även valutakursförändringar kommer att påverka Instrumentens värdeutveckling.
- (c) Genom att investera i Instrumenten bär investeraren risken för att Emittenten inte kommer att kunna göra några betalningar under värdepappren i enlighet med dess villkor. Om Emittenten skulle bli insolvent finns en risk för att investerare förlorar hela eller delar av det investerade beloppet. Instrumenten utgör icke säkerställda och icke efterställda förpliktelser för Emittenten och är i förmånsrättsligt hänseende likställda utan inbördes rangordning och åtminstone likställda med Emittentens alla övriga nuvarande och framtida utestående icke säkerställda och icke efterställda förpliktelser. Instrumenten kan också bli föremål för skuldnedskrivning om Emittenten bli föremål för resolution enligt direktiv 2014/59/EU, så som det implementerats i Finland, och därmed skrivs ner eller ombildas till andra värdepapper (inklusive ordinarie aktier) om resolutionsmyndigheten anser att det är nödvändigt för att återställa Emittentens möjlighet till fortlevnad.
- (d) Instrumenten är fritt omsättningsbara enligt dess villkor. Grundprospektet sammanfattar dock vissa legala restriktioner vad gäller att erbjuda och försäljning av Instrumenten i vissa jurisdiktioner.

Var kommer Värdepappren att handlas?

Ansökan har gjorts för Instrumenten för att godkännas för notering och för upptagande till handel på Nasdaq First North Sweden med effekt från emissionsdagen.

Vilka är de centrala riskerna som är specifika för Värdepappren?

Produktens komplexitet: avkastningsstrukturen för Instrumenten är ibland komplex och kan innehålla matematiska formler eller samband som för en investerare kan vara svåra att förstå och jämföra med andra investeringsalternativ. Förhållandet mellan risk och avkastning kan dessutom vara svårt att utvärdera.

Hävstångsrisker: på grund av hur Instrumenten är strukturerade kommer värdeutvecklingen hos den underliggande tillgången att påverka priset på Instrumentet och kan leda till större vinst eller större förlust på investerat kapital än om investeringen hade gjorts direkt i den underliggande tillgången. Detta uttrycks normalt så att Instrumentet har en hävstång jämfört med en investering i den underliggande tillgången, det vill säga att en förändring i pris (oavsett om det är en ökning eller en minskning) på den underliggande tillgången medför en större procentuell förändring, av värdet på Instrumenten. Risken förknippad med investering i dessa Instrument blir därmed större än vid en investering i den underliggande tillgången. Dessa Instrument kan förlora allt sitt värde.

Det kan finnas en avsaknad av aktiv marknad för handel med Instrumenten: Instrumenten kommer att

vara nya värdepapper som eventuellt inte kommer att spridas i någon större utsträckning och/eller inte vara noterade och, även om de skulle vara noterade, kan komma att sakna aktiv marknad. Avsaknaden av en aktiv marknad kan resultera i begränsad likviditet i Instrumenten, med följderna att investeraren kan behöva inneha Instrument tills de löses in.

Värdeutvecklingen hos de underliggande tillgångarna: enligt villkoren för Instrumenten kan innehavarna vara berättigade till avkastning och betalning av tillämplig slutlikvid beroende på värdeutvecklingen på en eller flera underliggande tillgångar och den aktuella avkastningsstrukturen. Värdeutvecklingen på Instrumenten påverkas av värdet på de underliggande tillgångarna vid specifika tidpunkter under Instrumentets löptid, intensiteten i prisfluktuationer hos de underliggande tillgångarna, prognoser kring framtida volatilitet, marknadsräntor och förväntad utdelning från de underliggande tillgångarna. Under vissa omständigheter kan en investerare förlora hela det investerade beloppet.

Automatisk förtida inlösen – Instrumenten kan komma att lösas in automatiskt innan dess egentliga förfallodag om vissa förutsättningar är uppfyllda, typiskt sett kallat för en ”knock”. Under vissa omständigheter kan detta leda till förlust av hela eller delar av en investerares framtida avkastning eller ränteutbetalningar från Instrumenten. Eftersom vissa avgifter och kostnader dras av från utgivningspriset kan ett förtida inlösen av Instrumenten även leda till proportionsmässigt högre kostnader.

Risker relaterade till störningar på marknaden och extraordinära händelser: underliggande tillgångar kan påverkas av störningar på de marknader där de vanligen handlas eller av extraordinära händelser såsom avnotering, nationalisering, konkurs, likvidation eller utspädning av den berörda underliggande tillgången. Alla Instrument kan bli föremål för händelser såsom lagändringar eller ökade kostnader för riskhantering. Om det sker kan Emittenten ensidigt göra justeringar i tillgångarnas sammansättning och i beräkningen av avkastningen eller värdet på Instrumenten, eller ersätta en underliggande tillgång med en annan, utefter vad Emittenten finner lämpligt.

Risker avseende den underliggande tillgången – avkastningen och värdet på instrumenten är kopplade till utvecklingen för de underliggande tillgångarna. Då utvecklingen för instrumenten är kopplade till utvecklingen i de underliggande tillgångarna så riskerar investerare att förlora hela det investerade beloppet. Värdet på ett instrument kan, utöver förändringar i värdet på den underliggande tillgången, påverkas av intensiteten i prisfluktuationer för den underliggande tillgången (vanligtvis benämnt volatilitet), förväntningar avseende framtida volatilitet, marknadsräntor och förväntade utdelningar eller andra betalningar på den underliggande tillgången. Investerare ska beakta att marknadsvärdet för instrumenten kan vara volatilt på grund av utvecklingen i den underliggande tillgången och att beloppet som betalas ut till investeraren i instrumentet kan vara lägre än det investerade beloppet eller till och med noll. Förändringar i priset på den underliggande tillgången behöver inte motsvara priset på instrumentet och en liten förändring i värdet på den underliggande tillgången kan leda till betydande förändringar i värdet på instrumentet. Emittenten kan inte kontrollera priset eller sammansättningen av den underliggande tillgången. En investerare i ett instrument har inga rättigheter motsvarande de som en direkt ägare av en underliggande tillgång har, t ex utdelningar eller andra betalningar som är kopplade till innehavet av en underliggande tillgång. Om den underliggande tillgången är denominerad i en annan valuta än den som instrumentet är denominerad i så är investerare i instrumentet föremål för valutakursrisk vilket kan innebära att de gör betydande förluster även om värdet på den underliggande tillgången är oförändrat eller har utvecklats förmånligt för investeraren. Tidigare valutakurser är inte nödvändigtvis en indikation på framtida valutakurser.

Risker relaterade till korta exponeringar: en ”lång” exponering innebär att värdeutvecklingen hos Instrumentet kommer att stiga när värdet på den underliggande tillgången stiger. Motsatsvis kommer Instrument med en ”kort” exponering, bland annat Bear Certifikat, att sjunka i värde när värdet på den underliggande tillgången stiger. Ett ökat värde på den underliggande tillgången kan därför resultera i att en investerare förlorar delar av eller hela det investerade kapitalet

Andra risker med Instrumenten kan hänföra sig bland annat till förändringar i räntenivåer, förändringar i växelkurser, huruvida Emittenten har rätt att lösa in Instrumenten i förtid, de finansiella instrumentens komplexitet, fluktuationer i relevanta index, andra underliggande tillgångar, finansmarknaden och huruvida återbetalning är beroende av andra omständigheter än Emittentens kreditvärdighet.
